1.0 INTRODUCTION TO THE NEW YORK STATE MEDICAID ELIGIBILITY VERIFICATION SYSTEM (Rev. 10/03)

New York State operates a Medicaid Eligibility Verification System (MEVS) as a method for providers to verify client eligibility prior to provision of Medicaid services. The Identification Card does not constitute full authorization for provision of medical services and supplies. A client must present an official Common Benefit Identification Card to the provider when requesting services. The verification process through MEVS must be completed to determine the client's eligibility for Medicaid services and supplies. A provider not verifying eligibility prior to provision of services will risk the possibility of nonpayment for those services. In some instances, a provider not obtaining a service authorization prior to submitting a claim will be denied payment.

The verification process through MEVS can be accessed using one of the following methods:

- the MEVS Terminal (VeriFone).
- a telephone verification process (Audio Response Unit).
- alternate access methods: (CPU-CPU link, batch transmission, PC-Host link and ePACES).

Information available through MEVS will provide you with:

- The eligibility status for a Medicaid client for a specific date (today or prior to today).
- The county having financial responsibility for the client (used to determine the contact office for prior approval and prior authorization.)
- Any Medicare, third party insurance or HMO coverage that a client may have for the date of service.
- Any limitations on coverage which may exist for the client through Utilization Threshold (UT) or Post and Clear (PC) programs and the necessary service authorizations, if applicable.
- Any restrictions to primary providers or exception codes, which further clarify a client's eligibility.
- Co-payment information.
- Dispensing Validation Numbers (DVS) for certain Drugs, Durable Medical Equipment, and Dental Services. (Not available via telephone access.)
- The ability to verify or cancel a previously obtained Service Authorization (SA) (not available via ARU).

The above information is not available on the Common Benefit Identification Card issued to the client.

MEVS is convenient and easy to use; it is available 24 hours a day, seven days a week.

MEVS is accurate; it provides current eligibility status information for all Medicaid clients and is updated on a daily basis.

MEVS is responsive; verification information is given in clear, concise and understandable messages.

MEVS should result in a reduction of claims pending or denied due to Medicaid eligibility problems.

This manual is designed to familiarize you with MEVS. The manual contains different sections discussing the Common Benefit Identification Card, the verification equipment, procedures for verification, a description of eligibility responses, definitions of codes, and descriptions of alternate access methods.

ALTERNATE ACCESS TO MEVS (Rev. 02/05)

Additional alternative methods of access allow providers to use their own equipment to access MEVS. The following is a brief description of these alternate access methods.

- **ePACES**

Refer to ePACES on <http://www.emedny.org/HIPAA/SupportDocs/ePACES.html>

- **CPU-CPU LINK**

This method is for providers who want to link their computer system to the MEVS contractor's computer system via a dedicated communication line. Upon receiving a MEVS verification request, the MEVS contractor sends back a response within seconds.

CPU-CPU link is suggested for service bureaus and high volume (5,000 to 10,000 transactions per day) providers.

- **eMedNY eXchange**

This method allows users to transfer files from their computer via a web-based interface. Users are assigned an "inbox" and are able to send and receive transaction files in an email-like fashion. Transaction files are "attached" and sent to eMedNY for processing. Responses are delivered to the user's inbox, and can be downloaded to the user's computer.

- **Batch Transmission**

This method is the standard process for batch authorization transmissions. FTP allows users to transfer files from their computer to another computer (upload) or from another computer to their computer (download). Each batch file transmission sent to the eMedNY contractor is required to be completed within two hours. Any transmission exceeding two hours will be disconnected.

- **PC-HOST LINK**

This method requires a PC, a dial up modem, and a specific message format. Verification requests are transmitted to the MEVS contractor one transaction at a time. Verification responses are returned within seconds.

The PC-Host method is suggested for low volume (under 500 transactions per month) and medium volume (500-2,000 transactions per month) providers. It is also recommended for providers who want to capture Medicaid information electronically to combine with billing and claims processing.

For further information about alternate access methods and the approval process, please call 1-800-343-9000.

1.1 **National Provider Identifier (NPI)** (Rev. 10/09)

As per the Administrative Simplification provision (Standard for Unique Health Identifier for Health Care Providers), of the Health Insurance Portability and Accountability Act of 1996 (HIPAA), the National Provider Identifier (NPI) was adopted as the standard (unique health identifier) for health care providers for use in the health care system.

The New York State Department of Health (NYSDOH) implemented the NPI system changes on September 1, 2008. NPI is required for all transactions submitted to NYS Medicaid including MEVS transactions. This should be the same NPI that you use to bill claims to New York Medicaid. **As of October 01, 2009, MEVS transactions will fail unless you begin using your NPI.**

Atypical providers are not impacted and may continue to use their MMIS ID. A List of Atypical Providers and their corresponding Category of Service (COS) is available on <http://www.emedny.org>.

(URL: http://www.emedny.org/atypical_provider_list.html).

2.0 BENEFIT IDENTIFICATION CARDS/FORMS (Rev. 10/05)

The Benefit Identification Cards with which you will need to become familiar are:

- a CBIC permanent plastic photo card.
- a CBIC permanent plastic non-photo card.
- a replacement paper card.

Presentation of a Benefit Identification Card alone is not sufficient proof that a client is eligible for services. Each of the Benefit Identification Cards must be used in conjunction with the electronic verification process. If you do not verify the eligibility of each client each time services are requested, you will risk the possibility of nonpayment for services which you provide.

In addition, there is a Temporary Medicaid Authorization Form which constitutes full coverage for medical services and does not need to be verified via the electronic process. The following is a detailed description of the Temporary Medicaid Authorization Form and each of the cards.

Temporary Medicaid Authorization Form

In some circumstances, the client may present you with a Temporary Medicaid Authorization (TMA) Form DSS-2831A (not pictured). This authorization is issued by the Local Department of Social Services when the client has an immediate medical need and a permanent plastic card has not been received by the client. The Temporary Medicaid Authorization Form is a guarantee of eligibility and is valid for 15 days. If presented with the authorization form after the time frame specified, the client should be requested to present his/her permanent Common Benefit Identification Card.

Providers should always make a copy of the TMA form for their records. Since an eligibility record is not sent to the eMedNY contractor until the CBIC Card is generated, the MEVS system will not have eligibility data for a client in TMA status. Note that any claim submitted for payment may pend waiting for the eligibility to be updated. If the final adjudication of the claim results in a denial for client eligibility, please contact the New York State Department of Health, Office of Health Insurance Programs, Local District Support. The phone number for inquiries on TMA issues for clients residing Upstate is (518)-474-8887. For New York City client TMA issues, the number is (212) 417-4500.

2.1 Permanent Common Benefit Identification Photo Card (Rev. 06/09)

The Permanent Common Benefit Identification Photo Card is a permanent plastic card issued to clients as determined by the Local Department of Social Services. This permanent card has no expiration date. Eligibility must be verified using the MEVS system.

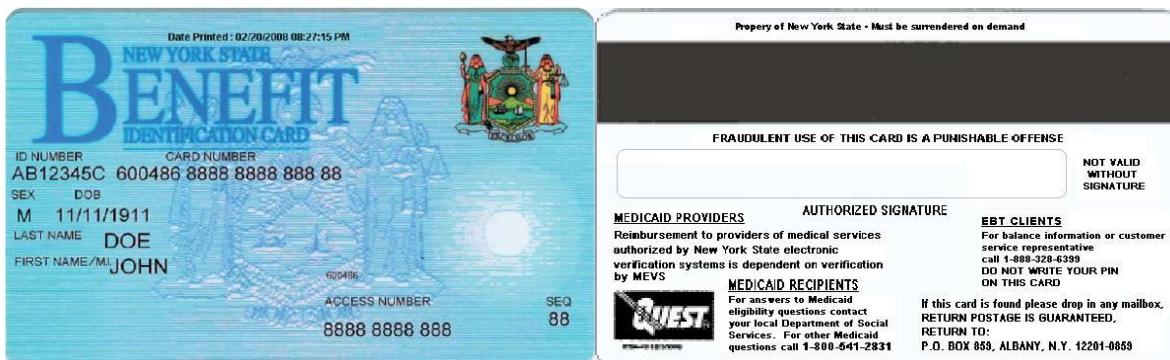

COMMON BENEFIT IDENTIFICATION PHOTO CARD DESCRIPTION	
ID Number	Eight-digit number assigned by the State of New York which identifies each individual Medicaid client. This number contains both alpha and numeric digits. <u>This is the Client Identification Number (CIN) to be used for billing purposes. Client ID # must be two alpha, five numeric and one alpha.</u>
Sex	One letter character indicating the sex of the client. This character is located on the same line as date of birth. M = Male F = Female U = Unborn (Infant)
Date of Birth	Client's date of birth, presented in MM/DD/YY format. Example: August 15, 1980 is shown as 08/15/1980. Unborns (Infants) are identified by 00000000. The date is located on the same line as sex.
Last Name	Last name of the client who will use this card for services.
First Name/ M.I.	First name and middle initial of the person named above.
Signature	Electronic Signature of cardholder, parent or guardian, if applicable.
ISO#	Six-digit number assigned to the New York State Department of Health (DOH). Disregard when manually entering access number for Medicaid verification.

COMMON BENEFIT IDENTIFICATION PHOTO CARD DESCRIPTION	
Access Number	Thirteen-digit number (including the 2 digit sequence number) used for entry into the Medicaid Eligibility Verification System. The access number is <u>not</u> used for billing.
Sequence Number	Two-digits at the end of the access number. This number is used in the entry process of access number and client number (CIN) verifications.
Photo	Photograph of the individual cardholder.
Magnetic Stripe	Stripe with enclosed information that is read by the MEVS terminal.
Signature Panel	Must be signed by the individual cardholder, parent or guardian to be valid for services.
Date Printed	Located at top of the Benefit Card. This information may be used, by the Medicaid client, to help identify the most recent benefit card that was issued. <i>Hint: Always use the Card with the most recent date/time stamp.</i> Date Printed Format: MM/DD/CCYY HH:MM:SS (AM/PM)

2.2 Permanent Common Benefit Identification Non-Photo Card (Rev. 06/09)

The Common Benefit Identification Non-Photo Card is a permanent plastic card issued to clients as determined by the Local Department of Social Services. This permanent card has no expiration date. Eligibility must be verified using the MEVS system.

COMMON BENEFIT IDENTIFICATION NON-PHOTO CARD DESCRIPTION	
ID Number	Eight-digit number assigned by the State of New York, which identifies each individual client. <u>This is the Client Identification Number (CIN) to be used for billing purposes. Client ID # must be two alpha, five numeric and one alpha.</u>
Sex	One letter character indicating the sex of the client. This character is located on the same line as date of birth. M = Male F = Female U = Unborn (Infant)
Date of Birth	Client's date of birth, presented in MM/DD/YY format. Example: August 15, 1980 is shown as 08/15/1980. Unborns (Infants) are identified by 00000000. The date is located on the same line as sex.
Last Name	Last name of the client who will use this card for services.
First Name/ M.I.	First name and middle initial of the person named above.
ISO#	Six-digit number assigned to the New York State Department of Health (DOH). Disregard when manually entering access number for Medicaid verification.
Access Number	Thirteen-digit number (including the 2 digit sequence number) used for entry into the Medicaid Eligibility Verification System. The access number is <u>not</u> used for billing.

COMMON BENEFIT IDENTIFICATION NON-PHOTO CARD DESCRIPTION	
Sequence Number	Two-digits at the end of the access number. This is used in the entry process of access number and client number (CIN) verifications.
Magnetic Stripe	Stripe with encoded information that is read by the MEVS terminal.
Signature Panel	Must be signed by the individual cardholder, parent or guardian to be valid for services.
Date Printed	Located at top of the Benefit Card. This information may be used, by the Medicaid client, to help identify the most recent benefit card that was issued. <i>Hint: Always use the Card with the most recent date/time stamp.</i> Date Printed Format: MM/DD/CCYY HH:MM:SS (AM/PM)

2.3 Replacement Common Benefit Identification Card (Rev. 10/03)

The Replacement Common Benefit Identification Card is a temporary paper card issued by the Local Department of Social Services to a client. This card will be issued when the Permanent Common Benefit Identification Card is lost, stolen or damaged. When using the MEVS terminal for eligibility verification, all information will need to be entered manually.

REPLACEMENT COMMON BENEFIT IDENTIFICATION CARD DESCRIPTION	
ID Number	Eight-digit number assigned by the State of New York which identifies each individual client. <u>This is the Client Identification Number (CIN) to be used for billing purposes. Client ID # must be two alpha, five numeric and one alpha.</u>
Sex	One letter character indicating the sex of the client. This character is located on the same line as date of birth. M = Male F = Female U = Unborn (Infant)
Date of Birth	Client's date of birth, presented in MM/DD/YY format. Example: August 15, 1980 is shown as 08/15/1980. Unborns (Infants) are identified by 00000000.
Name	Name of the client who will be able to use this card for services.
ISO#	Six-digit number assigned to the New York State Department of Health (DOH). Disregard when manually entering access number for Medicaid verification.
Access Number	Thirteen-digit number (including the 2 digit sequence number) used for entry into the Medicaid Eligibility Verification System. The access number is <u>not</u> used for billing.

REPLACEMENT COMMON BENEFIT IDENTIFICATION CARD DESCRIPTION	
Sequence Number	Two-digits at the end of the access number. This number is used in the entry process of access number and client number (CIN) verifications.
Expiration Date	Date the temporary card expires.
Signature Panel	Must be signed by the individual cardholder, parent or guardian to be valid for services.

Note: When verifying a client's eligibility be aware of the expiration date on the front of the card. The card is not valid if the date has expired. A response "INVALID CARD THIS RECIPIENT" will be returned.

3.0 INTRODUCTION TO TELEPHONE (AUDIO RESPONSE UNIT) VERIFICATION

(Rev. 10/03)

Verification requests for client eligibility may be entered into the MEVS system through a touch-tone telephone. This access method is suggested for providers with very low transaction volume (under 50 transactions per month). For convenience, providers with higher volumes should use the VeriFone Terminal or refer to [Alternate Access to MEVS](#) on page [1.0.2](#).

Access to the Telephone Verification System (Rev. 02/05)

A toll free number has been established for both New York State and Out of State Providers. To access the system, dial **1-800-997-1111**.

If you wish to be transferred directly to an eMedNY Provider Services Representative, you may press "0" on the telephone keypad at any time during the first four prompts.

The following message will be heard:

"The ARU Zero Out Option"

You will then be connected to the eMedNY Provider Services Helpdesk.

If you are unable to connect to MEVS by dialing the above primary number, dial the back-up number, **1-800-225-3040**. This back-up number must only be used when the primary number is not working. Once you complete your verification, you must return to using the primary number.

If the connection is unsuccessful using either number, call Provider Services at **1-800-343-9000**.

3.1 Telephone Equipment Specifications (Rev. 11/02)

A regular touch-tone telephone is the only access to the Audio Response Unit (ARU). It can be identified by the push button dial and different tones when dialing or entering information into MEVS.

The telephone keypad has two keys with which you should become familiar:

- The *(asterisk) key is used to clear a mistake that you have made. Once the incorrect information is cleared, re-enter the correct information for that step.

Note: This key must be pressed before you press the # key.

The * (asterisk) key is also used to repeat the verification response.

- The # (pound) key separates information. It must be pressed after each piece of information is entered.

3.2 Telephone Verification Using the Access Number or Medicaid Number (CIN) (Rev. 10/03)

The access number is a thirteen-digit numeric identifier on the Common Benefit Identification Card that includes the sequence number. The easiest and fastest verification method is by using the access number.

The Medicaid number (CIN) is an eight-digit alpha/numeric identifier on the Common Benefit Identification Card. The Medicaid number (CIN) can also be used to verify a client's eligibility. You must convert the eight-digit identifier to a number with eleven-digits. The three letters are the only characters converted in the number. You should refer to the [chart](#) below when converting the Medicaid number (CIN). For example:

A D 12345 Z = eight-digit Medicaid number (CIN)
21 31 12345 12 = becomes an eleven-digit number

For this example, the chart indicates that the letter A = 21, D = 31 and Z = 12. Replace the letters A, D and Z with the numbers 21, 31 and 12 respectively. The converted number is 21311234512

ALPHA CONVERSION CHART

A = 21	N = 62
B = 22	O = 63
C = 23	P = 71
D = 31	Q = 11
E = 32	R = 72
F = 33	S = 73
G = 41	T = 81
H = 42	U = 82
I = 43	V = 83
J = 51	W = 91
K = 52	X = 92
L = 53	Y = 93
M = 61	Z = 12

Note: Perform the required conversion before dialing MEVS.

3.3 Telephone Verification Input Section (Rev. 01/10)

Instructions for Completing a Telephone Transaction

- If using a CIN, be sure to convert the number before dialing. Refer to the [chart](#) on the previous page.
- Dial 1-800-997-1111.
- Once you have dialed and a connection is made, an Audio Response Unit (ARU) will prompt you for the input data that needs to be entered.
- If you wish to hear a prompt repeated, press *, (asterisk).
- To bypass a prompt, press #, (the pound key).
- To clear a mistake, press the * key and re-enter the correct information. This step is only valid if done prior to pressing the # key which registers the entry.
- Once you are familiar with the prompts and wish to make your entries without waiting for the prompts, just continue to enter the data in the proper sequence. As in all transactions (prompted or unprompted), press the # key after each entry.
- For assistance or further information on input or response messages, call the Provider Services staff at 1-800-343-9000.
- For some prompts, if the entry is invalid, the ARU will repeat the prompt. This allows you to correct the entry without re-keying the entire transaction.
- The call is terminated if excessive errors are made.
- To be transferred to an eMedNY Provider Services Representative, press “0” on the telephone keypad at any time during the first four prompts. The following message will be heard: “The ARU Zero Out Option”. You will then be transferred to the eMedNY Provider Services Helpdesk.
- If you will be entering co-payment information, be sure to convert the alpha co-payment type to a number, prior to dialing. Refer to Section 13.1 on page [13.0.1](#) for [Co-payment Type codes](#).
- The following types of transactions cannot be processed via the telephone:
 - Cancel Transactions
 - Authorization Confirmation Transactions
 - Dispensing Validation System Transactions

Note: Detailed instructions for entering a transaction begin on the next page. The Voice Prompt column lists the instructions you will hear once your call is connected. The Action/Input column describes the data you should enter.

3.4 Telephone Verification Response Section (Rev. 06/09)

AN ELIGIBILITY SERVICE AUTHORIZATION RESPONSE THAT CONTAINS NO ERRORS WILL BE RETURNED IN THE FOLLOWING SEQUENCE.

Note: Although all types of eligibility coverages are listed below, only one will be returned in the response.

MESSAGE SEQUENCE	RESPONSE	DESCRIPTION/COMMENTS
CIN	MEDICAID NUMBER AA22346D	The response begins with the client's eight-digit Medicaid CIN.
COUNTY CODE	COUNTY CODE XX	The two-digit code which indicates the client's county of fiscal responsibility. Refer to Section 13.4 on page 13.4.1 for county codes .
CLIENT'S MEDICAID COVERAGE	COMMUNITY COVERAGE WITH COMMUNITY BASED LONG TERM CARE	Client is eligible to receive most Medicaid services. Client is not eligible for nursing home services in a SNF or inpatient setting except for short-term rehabilitation nursing home care in a SNF. Short-term rehabilitation nursing home care means one admission in a 12-month period of up to 29 consecutive days of nursing home care in a SNF. Client is not eligible for managed long-term care in a SNF, hospice in a SNF or intermediate care facility services. Refer to Appendix Section 14.1 for Attestation of Resources Non-Covered Services.

MESSAGE SEQUENCE	RESPONSE	DESCRIPTION/COMMENTS
<p>CLIENT'S MEDICAID COVERAGE (contd.)</p>	<p>COMMUNITY COVERAGE WITHOUT LONG TERM CARE</p>	<p>Client is eligible for acute inpatient care, care in a psychiatric center, some ambulatory care, prosthetics, and short-term rehabilitation services. Short-term rehabilitation services include one admission in a 12-month period of up to 29 consecutive days of short-term rehabilitation nursing home care in a SNF, and one commencement of service in a 12-month period up to 29 consecutive days of certified home health agency services. Client is not eligible for adult day health care, Assisted Living Program, certified home health agency services except short-term rehabilitation, hospice, managed long-term care, personal care, consumer directed personal assistance program, limited licensed home care, personal emergency response services, private duty nursing, nursing home services in a SNF other than short-term rehabilitation, nursing home services in an inpatient setting, intermediate care facility services, residential treatment facility services and services provided under the Long Term Home Health Care Program, Traumatic Brain Injury Program, Care at Home Waiver Program and the Office of Mental Retardation and Developmental Disabilities Home and Community-Based Waiver Program.</p> <p>Refer to Appendix Section 14.1 for Attestation of Resources Non-Covered Services.</p>
	<p>ELIGIBLE CAPITATION GUARANTEE</p>	<p>A response of "Eligible Capitation Guarantee" indicates guaranteed status under a Prepaid Capitation Program (PCP). The PCP provider is guaranteed the capitation rate for a period of time after a client becomes ineligible for Medicaid services. Clients enrolled in some PCPs are eligible for some fee-for-service benefits if referred by the PCP provider. To determine exactly what services are covered, contact the PCP designated in the insurance code field.</p>

MESSAGE SEQUENCE	RESPONSE	DESCRIPTION/COMMENTS
CLIENT'S MEDICAID COVERAGE (contd.)	ELIGIBLE EXCEPT NURSING FACILITY SERVICES	Client is eligible to receive all Medicaid services except nursing home services provided in an SNF or inpatient setting. All pharmacy, physician, ambulatory care services and inpatient hospital services, not provided in a nursing home, are covered.
	ELIGIBLE ONLY FAMILY PLANNING SERVICES	The Family Planning Benefit Program provides Medicaid coverage for family planning services to persons of childbearing age with incomes at or below 200% of the federal poverty level. Eligible recipients (males and females) have access to all enrolled Medicaid family planning providers and family planning services currently available under Medicaid.
	ELIGIBLE ONLY OUTPATIENT CARE	Client is eligible for all ambulatory care, including prosthetics; no inpatient coverage.
	ELIGIBLE PCP	A response of "Eligible PCP" indicates coverage under a Prepaid Capitation Program (PCP). This status means the client is PCP eligible as well as eligible for limited fee-for-service benefits. To determine exactly what services are covered, listen to the PCP services returned in the response. If further clarification is needed, contact the PCP designated in the insurance code field.
CLIENT'S MEDICAID COVERAGE (contd.)	EMERGENCY SERVICES ONLY	Client is eligible for emergency services from the first treatment for the emergency medical condition until the condition requiring emergency care is no longer an emergency. An emergency is defined as a medical condition (including emergency labor and delivery) manifesting itself by acute symptom of sufficient severity (including severe pain), such that the absence of immediate medical attention could reasonably be expected to place the patient's health in serious jeopardy, serious impairment of bodily functions or serious dysfunction of any body organ or part.

4.0 **INTRODUCTION TO THE VERIFONE OMNI 3750 MEVS TERMINAL** (Rev. 10/03)

The VeriFone terminal is designed to provide an accurate and timely verification of a client's eligibility for Medicaid services. Specific features and conveniences, such as a large LCD screen, ATM style buttons and a built in printer, make the verification process easy to learn and use with a minimum of training time.

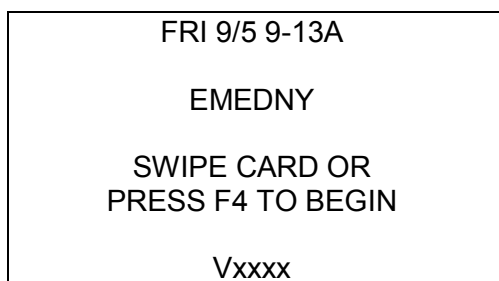

Multiple provider identification numbers can be programmed into the VeriFone terminal in the Provider Menu. When programmed, the two-digit shortcut code assigned to that Provider can be selected, instead of entering the Provider ID number. Refer to Section 7.3 on page [7.3.1](#) for [Instructions for Provider Menu](#) or call 1-800-343-9000 for assistance in adding multiple provider numbers to your terminal.

The Quick Start ([Refer to Section 5.0](#) on page [5.0.1](#)) is a quick and easy way to install the VeriFone Omni 3750 terminal. For step-by-step instructions use the VeriFone Installation Instructions ([Refer to Section 7.0](#) on page [7.0.1](#)).

Initial Screen

When the VeriFone Omni 3750 terminal is not actively being used, the device normally shows its "initial screen" (see below). This screen is referenced often in this manual. To get to this screen in most circumstances, press the red cancel key.

Initial screen example:

```
FRI 9/5 9-13A  
EMEDNY  
SWIPE CARD OR  
PRESS F4 TO BEGIN  
Vxxxx
```

The "xxxx" in "Vxxxx" on the bottom line is the software version the terminal is using. This number may be needed when calling provider services for assistance.

5.0 **QUICK START** (Rev. 10/03)

The Quick Start is an easy way to setup up the VeriFone Omni 3750 terminal. For a full and detailed description of the terminal refer to Section 6.0 on page [6.0.1](#) for the [VeriFone Omni 3750 Terminal](#).

1. Select a location that has access to a power outlet and a telephone line for your terminal. Open the box and unpack the terminal. (Refer to Section 7.0 on page [7.0.1](#) for the [VeriFone Installation Instructions](#) for step-by-step instructions).
2. Connect the telephone line cord into the telephone jack labeled 'H S'. Connect the other end into the wall jack. (Refer to Section 6.2 on page [6.0.3](#) for the [VeriFone Omni 3750 Terminal – Back](#)).
3. Connect the power connector into the power port on the back of the terminal, and the power cord into the power pack. Plug the three-prong power cord into the power outlet. (Refer to Section 6.2 on page [6.0.3](#) for the [VeriFone Omni 3750 Terminal – Back](#)).
4. After the device has gone through its start-up routine, the day, date, and time is displayed on the top line of the terminal.

Note: The terminal uses its internal clock to calculate the date that will be entered on your transaction. Please ensure that the Day, Date and Time are correct. For instructions on resetting Day, Date and Time, please refer to [Section 7.1](#) on page [7.1.1](#).

5. The terminal will arrive with the requestor's Provider number pre-programmed. It is recommended to review the Medicaid Provider number before using the terminal. Press the **P2** key (labeled "Provider") to enter the Provider Menu. "Provider Setup" is briefly displayed. When the Password prompt is displayed, enter the following six-digit number '123456' and press the **ENTER** key. When the terminal displays "ENTER PROVIDER NUMBER", enter the two-digit number '01' and press the **ENTER** key. "PROVIDER NUMBER 01" is displayed with the pre-programmed Provider number below the text.
6. To use the pre-programmed Provider number, press the **CANCEL/CLEAR** key, to return to the initial screen. To change the pre-programmed Provider number, press the **BACKSPACE** key eight times to clear the number. Then enter the eight-digit Medicaid Provider number and press the **ENTER** key. If you have no additional Provider numbers to enter, press the **CANCEL/CLEAR** key. To store additional Provider numbers refer to Section 7.3 on page [7.3.1](#) for [Instructions for Provider Menu](#).
7. If you are required to dial a number to get an outside line (e.g. '9'), press the **P1** key (labeled "Setup") to enter the Setup Menu. When the Password prompt is displayed, enter the following six-digit number '123456' and press the **ENTER** key. The "DIAL PREFIX" is displayed, enter the access code (e.g. single digit "9") and press the **ENTER** key. After the access code has been entered, press the **CANCEL/CLEAR** key to return to the Initial Screen. (Refer to Section 7.2 on page [7.2.1](#) for [Instructions for Setup Menu](#)).
8. Press the **F4** key or swipe the CBIC card in the Magnetic Card Reader to begin processing transactions to eMedNY.

7.0 **VERIFONE INSTALLATION INSTRUCTIONS** (Rev. 10/03)

These instructions will assist with the setup of the VeriFone Omni 3750 terminal. Select a location that has access to a power outlet and a telephone line for your terminal.

Connecting the Telephone Line

1. Connect one end of the telephone line cord to the telephone jack labeled "H S" on the right hand side at the rear of the terminal
2. Connect the other end of the telephone line cord to your RJ11-type modular telephone wall jack. If you do not have a telephone wall jack, obtain an adapter from your local telephone company.

Connecting the Terminal Power Pack

1. Connect the power connector into the power port.
2. To lock the power connector, align the plastic lock tab pointing up and turn to the left. To unlock the power connector, turn to the right.
3. Connect the power cord into the power pack.
4. Plug the three-prong AC power cord into an indoor 120-volt AC outlet.

WARNING: Do not plug the power pack into an outdoor outlet or operate the terminal outdoors.

Inserting Thermal Paper into the Internal Thermal Printer

1. To open the printer paper compartment, press the Paper Cover Release button located on the right side of the terminal.

9.0 VERIFONE VERIFICATION RESPONSE SECTION (Rev. 06/04)

The device will automatically display and print the response data unless you have specified in the setup menu to not automatically print your receipts. To print an additional copy of the response data, press the '*' asterisk key. To advance the paper by a line, press the '3' key from the initial screen. If your device has paper but is not printing a response, refer to the "PRINT ALL" setting in Section 7.2 on page [7.2.1](#) for [Instructions for Setup Menu](#).

Note: The screen will display up to eight (8) lines of text. If the response is longer than eight (8) lines, use the P3 (Scroll Back) and P4 (Scroll Forward/Review) keys.

9.1 Fields on MEVS receipt (Rev. 08/09)

The MEVS receipt presents information in two sections:

- Input: The Input section displays the information entered into the MEVS device for the last transaction and always starts with the **TODAY'S DATE** field which reflects the terminal's internal date and time.
- Response: The Response section only displays fields, which contain data. The fields displayed also vary based on the Tran Type used to conduct the transaction. The Response section always starts with the PROV NO. field.

Some fields are required fields (as stated in the transaction descriptions in [Section 8.2](#) on page [8.0.1](#)), so they will always appear.

		When certain conditions are met (ex: multiple responses), you are instructed to call the Provider Services staff for additional data.
Y	SPENDDOWN	NO COVERAGE: EXCESS INCOME
		Client has income in excess of the allowable levels. All other eligibility requirements have been satisfied. This individual will be considered eligible for Medicaid reimbursable services only at the point his or her excess income is reduced to the appropriate level. The individual may reduce his or her excess income by paying the amount of the excess to the Local Department of Social Services, or by submitting bills for the medical services that are at least equal to the amount of the excess income. Medical services received prior to meeting the excess income amount can be used to reduce the amount of the excess.

An invalid transaction type other than 1-4, 6 or 7 was entered.	
INVALID TERMINAL ACCESS	
The received transaction is classified as a Provider Type/Transaction Type Combination that is not allowed to be submitted through the POS VeriFone terminal. Additionally, this message will be returned if a pharmacy submits a DVS transaction for an NDC code through the POS VeriFone terminal because NDC codes must be submitted through the online NCPDP DUR format. Pharmacies are only allowed to submit DVS transactions through the POS VeriFone terminal for HCPCS codes (five-digit alpha/numeric codes). For example: a Pharmacy can submit an eligibility transaction via the Terminal but cannot submit a Service Authorization Transaction unless exempt from the ProDUR Program.

13.5 Exception Codes (Rev. 06/09)

Exception Codes are two-digit codes that identify a client's program exceptions or restrictions.

Code 23	This code identifies a client who is enrolled in the OMH Home and Community Based Services (HCBS) Waiver for Seriously Emotionally Disturbed (SED) children. As a result, this individual is exempt from Utilization Threshold and Co-pay requirements.
Code 24	This code identifies a client who is enrolled in a Chronic Illness Demonstration Project (CIDP) program. The client's participation in a CIDP does not affect eligibility for other Medicaid services. As a result, this individual is not Utilization Threshold or Co-pay exempt.
Code 30	This code identifies a Medicaid client who is enrolled in the Long Term Home Health Care Program Waiver also known as the Lombardi Program/nursing home without walls. The client is authorized to receive LTHHCP services from an enrolled LTHHCP provider. Clients with R/E 30 are <u>not</u> Utilization Threshold or Co-pay exempt.
Code 35	This client is enrolled in a Comprehensive Medicaid Case Management (CMCM) program and is exempt from Co-payment and Utilization Threshold processing. The client's participation in CMCM does not affect eligibility for other Medicaid services.
Code 38	The client is resident in an ICF-DD facility. As such, the individual is exempt from Co-payment and Utilization Threshold requirements and may be eligible for some fee-for-service Medicaid coverage. You should contact the ICF-DD to find out if the service is included in their per diem rate. If it is not, the claim can be submitted to the NYS Medicaid Program.
Code 39	This code identifies a client in the Aid Continuing program. As such, the client is subject to Utilization Threshold and exempt from Co-payment requirements.
Code 44	This code identifies a Medicaid client who is enrolled in OMRDD's Home and Community Based Services (HCBS) Waiver and is authorized to receive Non-Intensive At Home Residential Habilitation services. As a result, this individual is exempt from Utilization Threshold and Co-payment requirements.
