1. Purpose Statement

The purpose of this document is to assist the provider community in understanding and complying with the New York State Medicaid (NYS Medicaid) requirements and expectations for billing and submitting claims.

This document is intended to serve as an instructional reference tool for providers who submit claims using either the 837 Institutional or paper UB-04 form. For providers new to NYS Medicaid, it is required to read the Trading Partner Information Companion Guide available at www.emedny.org by clicking on the link to the webpage as follows: [eMedNY Trading Partner Information Companion Guide](#).

2. Claims Submission

Billing for institutional services other than clinic or hospital inpatient services, may be performed using electronic or paper formats. Clinic and inpatient claims may be submitted electronically only.

Providers are required to submit an Electronic/Paper Transmitter Identification Number (ETIN) Application and Certification Statement before submitting claims to NYS Medicaid. Certification Statements remain in effect and apply to all claims until superseded by another properly executed Certification Statement.

Providers are asked to update their Certification Statement on an annual basis. Providers are sent renewal information when their Certification Statement nears expiration. Information about these requirements is available at www.emedny.org by clicking on the link to the webpage as follows: [eMedNY Trading Partner Information Companion Guide](#).

2.1 Electronic Claims

Pursuant to the Health Insurance Portability and Accountability Act (HIPAA), Public Law 104-191, which was signed into law August 12, 1996, the NYS Medicaid Program adopted the HIPAA-compliant transactions as the sole acceptable format for electronic claim submission, effective November 2003.

Institutional providers who submit claims electronically are required to use the HIPAA 837 Institutional (837I) transaction.

Direct billers should refer to the sources listed below in order to comply with the NYS Medicaid requirements.

- 5010 Implementation Guides (IGs) explain the proper use of 837I standards and other program specifications. These documents are available at store.X12.org.
- The eMedNY 5010 Companion Guide provides specific instructions on the NYS Medicaid requirements for the 837I transaction. This document is available at www.emedny.org by clicking on the link to the web page as follows: [eMedNY Transaction Information Standard Companion Guide](#).

Further information on the 5010 transaction is available at www.emedny.org by clicking on the link to the web page as follows: [eMedNYHIPAASupport](#).

Further information about electronic claim prerequisites is available at www.emedny.org by clicking on the link to the webpage as follows: [eMedNY Trading Partner Information Companion Guide](#).

2.2 Paper Claims

Institutional providers who submit their claims on paper forms must use the National Uniform Billing Committee (NUBC) standard UB-04 claim form.

NOTE: Submission of paper claims for hospital and clinic services is NOT PERMITTED.

INSTITUTIONAL

To view a sample UB-04 claim form, see Appendix A. The displayed claim form is a sample and is for illustration purposes only.

An Electronic/Paper Transmission Identification Number (ETIN) and a Certification Statement are required to submit paper claims. Providers who have a valid ETIN for the submission of electronic claims do not need an additional ETIN for paper submissions. The ETIN and the associated certification qualify the provider to submit claims in both electronic and paper formats. Information about these requirements is available at www.emedny.org by clicking on the link to the webpage as follows: [Information for All Providers](#).

2.2.1 General Instructions for Completing Paper Claims

Since the information entered on the claim form is captured via an automated data collection process (imaging), it is imperative that it be legible and placed appropriately in the required fields. The following guidelines will help ensure the accuracy of the imaging output:

- All information should be typed or printed.
- Alpha characters (letters) should be capitalized.
- Numbers should be written as close to the example below in Exhibit 2.2.1-1 as possible:

Exhibit 2.2.1-1

- Circles (the letter O, the number 0) must be closed.
- Avoid unfinished characters. See the example in Exhibit 2.2.1-2.

- Separate forms using perforations; do not cut the edges.
- Do not fold the claim forms.

Rensselaer, NY 12144-4601

2.3 UB-04 Claim Form

The UB-04 1450 is a standard form; therefore CSC does not supply it. The form can be obtained from any of the national suppliers.

The UB-04 Manual (National Uniform Billing Data Element Specifications as Developed by the NUBC – Current Revision) should be used in conjunction with this Provider Billing Guideline and the applicable provider guideline as a reference guide for the preparation of claims to be submitted to NYS Medicaid. The UB-04 manual is available at www.nubc.org.

Form Locators in this manual for which no instruction has been provided have no Medicaid application. These Form Locators are ignored when the claim is processed.

2.4 General Billing Instructions

This subsection of the Billing Guidelines covers the specific NYS Medicaid billing requirements for Institutional claims. Although the instructions that follow are based on the UB-04 paper claim form, they are also intended as a guideline for electronic billers to find out what information they need to provide in their claims. For reference purposes, the related electronic fields are provided. For further electronic claim submission information, refer to eMedNY 5010 Companion Guide which is available at www.emedny.org by clicking on the link to the webpage as follows: [eMedNY Transaction Information Standard Companion Guide](#).

It is important that providers adhere to the instructions outlined below. Claims that do not conform to the eMedNY requirements as described throughout this document may be rejected, pending, or denied.

2.4.1 Instructions for the Submission of Medicare Crossover Claims

This subsection is intended to familiarize the provider with the submission of crossover claims. Providers can bill claims for Medicare/Medicaid members to Medicare. Medicare will then reimburse its portion to the provider and the provider's Medicare remittance will indicate that the claim will be crossed over to Medicaid. **Medicare Part-C** (Medicare Managed Care) and **Medicare Part-D** claims are *not* part of this process.

Providers must review their Medicare remittances for crossover information to determine whether their claims have been crossed over to Medicaid for processing. Any claim that was indicated by Medicare as a crossover should not be submitted to Medicaid as a separate claim. If the Medicare remittance does not indicate the claim has been crossed over to Medicaid, the provider should submit the claim directly to Medicaid. Claims for services not covered by Medicare should continue to be submitted directly to Medicaid as policy allows.

If a separate claim is submitted directly by the provider to Medicaid for a dual eligible member and the claim is paid before the Medicare crossover claim, both claims will be paid. The eMedNY system will then automatically void the provider submitted claim. Providers may submit adjustments to Medicaid for their crossover claims, because they are processed as a regular adjustment.

Electronic remittances from Medicaid for crossover claims will be sent to the default ETIN when the default is set to electronic. If there is no default ETIN, the crossover claims will be reported on a paper remittance. The ETIN application is available at www.emedny.org by clicking on the link to the webpage as follows: [Default Electronic Transmitter Identification Number \(ETIN\) Selection Form](#).
