Executive Deputy Commissioner

New Resource: Medicaid Pharmacy Program Opioid Management webpage and Non-opioid alternative chart

The Medicaid Pharmacy program has developed a [webpage](#) that provides links to resources for the treatment of substance use disorder and the use of opioids/non-opioids for the management of pain.

A reference chart, [Medicaid Non-Opioid alternative treatment options](#), has been developed by the department as a tool to aid in selecting non-opioid treatment options for the management of pain. This chart lists FDA/Compendia supported medications that can be used for pain management.

Links to these resources can also be found under the [Helpful Links](#) section of the New York State Medicaid Managed Care (MMC) Pharmacy Benefit Information Center website.
