Approximately 1.5 million beneficiaries continue to access prescription and/or supply benefits through the Medicaid FFS program

While pharmacy benefits for the majority of Medicaid beneficiaries were bundled into managed care effective October 1, 2011, **approximately 1.5 million beneficiaries continue to access drug and supply benefits through the Medicaid FFS program.** Beneficiaries that are not currently enrolled in a mainstream managed care plan will continue to obtain these benefits from Medicaid until such time that they are moved into managed care or care management. In addition, for dual eligible beneficiaries enrolled in both Medicaid and Medicare Part D plans, Medicaid will reimburse only for eligible drugs in classes excluded by Medicare.

Members in the following primary care partial capitation managed care plans continue to obtain **drug and supply benefits** from Medicaid fee for service:

Southern Tier Pediatrics PC	Gold Choice (UB Family Med)
