eMedNY Business Rules for 834 Transaction Processing Sequence

eMedNY Business Rules for 834 Transaction Processing Sequence

There were many differing questions received regarding how to prioritize the 834 enrollment transactions for Plan members. Because there can be many different scenarios with many different solutions, the Department has provided some business rules that should be followed in order to assist with how to prioritize when more than one 834 transaction is received for a member. These business rules are published in the MCE 834 Companion Guide in the section **eMedNY Business Rules for Transaction Processing Sequence** on www.emedny.org under the HIPAA Tab > Transaction Instructions
