

DEFAULT ELECTRONIC TRANSMITTER IDENTIFICATION NUMBER (ETIN) SELECTION FORM

eMedNY uses a Default ETIN, linked to your MMIS Provider Number/NPI, for reporting the following types of claims on your electronic remittance:

- claims submitted on paper forms
- State submitted adjustments/voids
- automated Medicare crossover claims

Unless a default is selected, these types of claims are reported to you on paper remittances.

NOTE: You must be receiving electronic remittances before submitting this form. If you need to request electronic remittances, you must submit the ELECTRONIC REMITTANCE 835/820 REQUEST FORM located at www.emedny.org. Look under Information and Provider Enrollment Forms. At the same time, you can also use the ELECTRONIC REMITTANCE 835/820 REQUEST FORM to select a Default ETIN.

To select, change or remove a Default ETIN, place an "X" in the appropriate box below and indicate the Default ETIN in the space provided. If you have multiple ETINs, you may only choose **one** as the Default.

Select Default

Change Default

Remove Default
