Threshold Override Applications (TOA) Require ICD10 Diagnosis Codes

Threshold Override Applications (TOA) Require ICD10 Diagnosis Codes

The Utilization Threshold (UT) program limits the number of times Medicaid members can receive certain medical services in a benefit year. Increases in a member's UT service limits can only be granted upon submission of a TOA.

As of October 1, 2015 only ICD10 diagnosis codes are acceptable on the TOA form. TOAs received with ICD9 codes will be denied.

Details about the UT program can be found here:

https://www.emedny.org/info/phase2/PDFS/5010_The_Utilization_Threshold_Program.pdf.
