

Ankle Foot Orthoses (AFOs) Allowed Frequency Update

**Please make the following changes in the Procedure Code section of your
DME Provider Manual (Rev. 4/2014)**

Effective immediately, the frequency allowed through the Dispensing Validation System (DVS) for the following codes has been increased to allow for the dispensing of two pair per year. This change will allow improved access for pediatric beneficiaries where growth and development may require more frequent replacement compared to adult beneficiaries.

Please note, the supporting documentation on file must include evidence of the growth or anatomical change warranting the replacement.
