

New York State (NYS) Medicaid Fee-for-Service (FFS) Policy and Billing Guidance for COVID-19 Testing and Specimen Collection at Pharmacies As of 9/18/2020 Updates are highlighted

Per the Governor's Executive Order [#202.24](#), during the declared disaster emergency, Section 6801 of the NYS Education Law and Subdivision (6) of section 571 of the NYS Public Health Law have been temporarily modified to the extent necessary to authorize licensed pharmacists to:

- order COVID-19 tests, approved by the Food and Drug Administration (FDA), to detect SARS-CoV-2 or its antibodies;
- administer COVID-19 tests subject to CLIA Certificate of Waiver requirements pursuant to the federal clinical laboratory improvement act of nineteen hundred eighty-eight, in patients suspected of a COVID-19 infection, or suspected of having recovered from COVID-19 infection, subject to completion of appropriate training developed by the Department of Health; and,
- be designated as a qualified healthcare professional for the purpose of directing a limited service laboratory, pursuant to subdivision 579(3) of the Public Health Law, to test patients suspected of a COVID-19 infection or its antibodies provided that such test is FDA-approved and waived for use in a limited service laboratory.

This guidance is effective May 22, 2020 and shall remain in effect for the remainder of the disaster emergency declared by Executive Order No. 202.24, or until the issuance of subsequent guidance by the NYSDOH prior to the expiration of such state disaster emergency declaration.

NYS Medicaid FFS will cover COVID-19 specimen collection or CLIA waived COVID-19 testing at pharmacies in accordance with this Executive Order. Pharmacies will only be able to bill for Medicaid non-dual eligible members for FDA approved or cleared tests or tests that have been authorized by the FDA under Emergency Use Authorization (EUA) (see billing instructions below). Dual eligible members will continue to access testing services through [Medicare](#).
