

# NYS MEDICAID PRE-ADJUDICATION CROSSWALK FOR HEALTH CARE CLAIMS

## VERSION 5010 (BATCH AND REAL-TIME)

The specifications for the transactions referenced here are the property of the Accredited Standards Committee X12 and are available at:

<http://www.wpc-edi.com/>  
<http://store.x12.org/>

Implementation Guide (TR3):  
 005010X212  
 005010X214

It is extremely important that providers, as well as the vendors that service the eMedNY provider community, react to the front end responses sent by eMedNY. Claims rejected by the front end process are not reported in the Remittance Advice or any other transactions.

The following table lists the specific values returned by the eMedNY system in the ASC X12N 277 Health Care Claim Acknowledgment in the loop 2200D and 2220D STC segment for Claim Status Category Code (STC01-1), Claim Status Code (STC01-2), and Entity Identifier Code (STC01-3) in response to electronic healthcare claims submitted on the ASC X12N 837 Health Care Claim. Note also that by default, an STC segment with STC01 valued with A1|20 is returned in loop 2200B.

Inbound claims are validated against a set of preliminary edits that are checked prior to adjudication but after EDI translation. If no errors are found on a specific claim, the claim is forwarded for adjudication. Otherwise the codes listed in the table below will report the specific error condition that was identified. When submitted claims fail any of these edits they will not be adjudicated.
