All claims must be **finally** submitted to eMedNY and be payable within two years from the date the care, services or supplies were furnished in order to be valid and enforceable against the Department or a social service district.

All claims over **two years** old must be submitted directly to eMedNY within 60 days of the date submission came within control of the provider. Those claims will be automatically denied and a denial message (Edit 01292, Date of Service Two Years Prior to Date Received, or HIPAA reject reason code 29 or 187, the time limit for filing has expired) will appear on the remittance statement or 835 electronic remittance. The Department will only consider claims over two years old for payment if the provider can produce documentation verifying that the cause of the delay was the result of errors by the Department, the local social services districts, or other agents of the Department. In addition, payments will be made for claims submitted in circumstances where a court has ordered the Department to make payment.

Requests for waiver of the regulation regarding submission of claims greater than two years from the date of service must then be **received** at the address below within 60 days of the release of the Medicaid remittance statement confirming the Two Year denial.

New York State Department of Health
Two Year Claim Review
431B Broadway
Menands, NY 12204-2836

Supporting documentation and a copy of the current remittance statement documenting the edit 01292 denial must accompany your written request. Claims submitted for review without the appropriate documentation, or those NOT submitted within the 60 day time period for review, will NOT be considered.

**Voiding and Adjusting of Paid Claims**

When a provider **voids** a previously paid claim and now wishes to resubmit, the resubmission is treated as a **new claim** and will be subjected to the criteria above for the submission of claim(s) over two years old. All timely submission rules will apply. The voided claim will **not** be considered as an agency error and, therefore, the new claim will **not** qualify for a waiver of the two-year regulation. **Adjustments, rather than voids, should always be billed to correct a paid claim(s).**

**Claims Submitted for Stop-Loss Payments**

All claims for Stop-Loss payment must be finally submitted to eMedNY and be payable, within two years from the close of the benefit year in order to be valid and enforceable against the Department. The Department will **only** consider Stop-Loss claims **over two years from the close of the benefit year** for payment if the provider can produce documentation verifying that the cause of the delay was the result of agency error or a Court-ordered payment.

* Please note that for a Two Year Waiver **the close of the benefit year** is defined as the earliest of:
  - the last day of the beneficiary's plan enrollment; or
  - the last day of the beneficiary's Medicaid eligibility; or
  - the beneficiary's date of death; or
  - the last calendar day of the benefit year.

Refer to the General Billing section of your Provider Manual for information on timely submission of claims.
