**CLINICAL PSYCHOLOGY**

**PROCEDURE CODES &**

**FEE SCHEDULE**

## GENERAL INFORMATION AND INSTRUCTIONS

1. The time component described in the services is defined as only that time the psychologist spends face-to-face (ie, contact time) with the patient and/or family. Non face-to-face time, also called pre- and post- encounter time, is not to be included in calculation of the time component of the coding.
2. The fees in this schedule include payment for the face-to-face encounter with the patient and/or family, the preparation for that encounter, and the post encounter services including analysis or review of records or tests, updating of records, and communication with the referent or patient through written reports and telephone contact.
3. Codes 90832-90838 describe psychotherapy for the individual patient, although times are for face-to-face services with patient and may include informant(s) (family members, guardians, or significant others). The patient must be present for all or a majority of the service.
4. Code 90853 is to be used to bill per patient for one and one-half hour sessions which involve a minimum of two and a maximum of eight patients seen in the same setting at the same time for a similar therapeutic purpose.
5. Listed fees are the maximum reimbursable Medicaid fees.
