3.0 NEW FOR 2024

Procedure Codes

Please note the following new codes added to the Medical Supplies Manual

New Code	Description	Reimbursement Amount
A4224	#Supplies for maintenance of insulin infusion catheter, per week	\$25.41
B4187	Omegaven, 10g lipids (Pharmacy only)	\$12.41
A4328	Female external urinary collection device; pouch, each	\$11.39
A4287	Disposable collection and storage bag for breast milk, any size, any type, each	\$0.21
<u>A4457</u>	Enema tube, with or without adapter, any type, replacement only, each	Cost + 51%

Deleted/Removed Codes with Replacement Codes (if applicable)

Please note the following codes that have been deleted and replaced

Deleted Code	Code Description	Replacement Code
K1005	Disposable collection and storage bag for breast milk, any size, any type, each	A4287
K1013	Enema tube, with or without adapter, any type, replacement only, each	A4457
A9276	#Sensor; invasive (e.g. subcutaneous), disposable, for use with non-durable medical equipment interstitial continuous glucose monitoring system, one unit = 1 day	A4238 (Medtronics only)
<u>A9277</u> ^{F6}	Transmitter; external, for use with non-durable medical equipment interstitial continuous glucose monitoring system (CGM)	A4238 (Medtronics only)

Coverage Guidelines

Medical Supplies

<u>A9278</u> ^{F4}	Receiver (monitor); external, for use with non-durable medical equipment interstitial continuous glucose monitoring system (CGM) (ancillary device)	E2102 (Medtronic only)
<u>A4239</u>	Supply allowance for non-adjunctive, non-implanted continuous glucose monitor (cgm), includes all supplies and accessories, 1 month supply = 1 unit of service	Billed through Preferred Diabetic Program
<u>E2103</u>	Non-adjunctive, non-implanted continuous glucose monitor or receiver	Billed through Preferred Diabetic Program

Quantity

Please note the following changes to the quantities listed on the DMEPOS Fee Schedule

Code	Description	Previous Quantity	New Quantity
A4231	#Infusion set for external insulin pump, needle type, each	24	30
A4349	Male external catheter, with or without adhesive, disposable, each	40	31
A5063	#Pouch, drainable, for use on barrier with flange (2 piece system), each	50	30
B4185	Parenteral nutrition solution, per 10 grams lipids	450	105 (weekly)
B4187	Omegaven, 10g lipids	450	105 (weekly)

Fees

Please note the following changes to the fees listed on the DMEPOS Fee Schedule

Code	Previous Fee	New Fee
A4371	\$2.51	\$3.88
A4406	\$4.71	\$6.09
A4409	\$4.85	\$6.61
A4452	\$0.12	\$0.38
A5063	\$2.29	\$2.95
B4149	\$1.00	\$1.11
B4150	\$0.50	\$0.59
B4152	\$0.39	\$0.45
B4154	\$0.86	\$0.97
B4157	\$4.63	\$5.36
B4161	\$1.36	\$2.11
B4162	\$4.63	\$5.36
B4220	No fee on file	\$9.07
B4222	No fee on file	\$11.19
B4224	No fee on file	\$28.34
L8000	\$31.53	\$33.67
L8030	\$182.44	\$295.58

4.0 General Information and Instructions

NYRx Transition

As of April 1, 2023, NYS Medicaid members enrolled in mainstream Medicaid Managed Care (MMC) Plans, Health and Recovery Plans (HARPs), and HIV-Special Needs Plans (SNPs) receive their pharmacy benefits through the NYRx, (the Medicaid Pharmacy Program) or through an enrolled DMEPOS provider through professional claims submission, instead of through their MMC Plan. The pharmacy/DME supply benefit transition to NYRx and Fee for Service (FFS) DME providers does not apply to NYS Medicaid members enrolled in Managed Long-Term Care (MLTC) Plans [e.g., MLTC, Programs of All-Inclusive Care for the Elderly (PACE), Medicaid Advantage Plus (MAP), the Essential Plan, or Child Health Plus (CHP)].

Items located in Sections 4.1, 4.2, 4.3, and 5.0 are included in the NYRx transition. After April 1, 2023, claims for MMC members for items in these sections will be reimbursed through NYRx or DMEPOS FFS providers and billed directly to Medicaid. All prior approval/authorization systems or procedures are in effect as for current FFS members.

Fees

Fees are published in the Fee Schedule section of the DME Manual located at <https://www.emedny.org/ProviderManuals/DME/index.aspx>

Standards

Standards of coverage are included for high utilization items to clarify conditions under which Medicaid will reimburse for these items. Also see [section 2 of the DME Policy Guidelines](#).

Federal Law

Any item dispensed in violation of Federal, State or Local Law is not reimbursable by New York State Medicaid.

Purchases

An underlined procedure code indicates the item/service requires prior approval. When the procedure code's description is preceded by a "#", the item/service requires an authorization via the dispensing validation system (DVS). When the procedure code's description is preceded by an asterisk (*), the item/service requires an authorization via the Interactive Voice Response (IVR) system or Enteral Web Portal, <https://medicaidenteralportal.health.ny.gov/portal/>. When none of the above-described circumstances exist, the procedure code is a direct bill item. Please refer to the DME manual, Policy Guidelines, for additional information.

Brand Names

Where brand names and model numbers appear in the DME manual, they are intended to identify the type and quality of equipment expected and are not exclusive of any comparable product by the same or another manufacturer.

Modifiers

The following modifiers should be added to the five-character Healthcare Common Procedure Coding System (HCPCS) code when appropriate.

'-BO' <u>Orally administered enteral nutrition</u>	Must be added to the five-digit alpha-numeric code as indicated
'-RB' <u>Replacement and Repair</u>	<ul style="list-style-type: none">- Allowed twice per year (365 days) per device for patient-owned devices only. More frequent repairs to the device require prior approval

Coverage Guidelines

Medical Supplies

Department
of Health

	<ul style="list-style-type: none"> - Bill with the most specific code available with the modifier for the equipment or part being repaired - Use of “-RB” is not needed when a code is available for a specific replacement part: use the specific code only when billing - A price must be listed for the code in the fee schedule in order for ‘-RB’ to be reimbursable without prior approval - Prior approval is not required when the repair charge is less than 25% of the price listed on the code for the device. - If the charge is greater than 25% of the price, prior approval is required.
<u>‘-U3’ Repair/Replacement of Patient Owned Equipment</u>	<ul style="list-style-type: none"> - is required when billing for repairs to patient owned equipment when the member is in a hospital or skilled nursing facility.

Quantity

For items listed in section 4.1 Medical/Surgical Supplies, the quantity listed on the DME Fee Schedule is the maximum allowed **per 30 days**, unless otherwise specified. If the fiscal order exceeds this amount, the provider must obtain prior approval.

Frequency

Durable Medical Equipment, Orthotics, Prosthetics and Supplies have limits on the frequency that items can be dispensed to an eligible member. If a member exceeds the limit on an item, prior approval must be requested with accompanying medical documentation as to why the limit needs to be exceeded. The frequency for each item is listed by a superscript notation next to the procedure code. The following table lists the meaning of each notation:

F1=once/lifetime	F2=twice/lifetime	F3=once/5years	F4=once/3 years
F5=once/2 years	F6=once/year	F7=twice/year	F8=three/2 months
F9=once/month	F10=twice/month	F11=four/month	F12=once/day
F13=once/3 months	F14=four/lifetime	F15=six/lifetime	F16=once/6 months
F17=twelve/lifetime	F18=three/lifetime	F19=twice/3years	F20=two/2 years
F21=two/6 months	F22=four/year	F23=six/2 years	F24=eight/year
F25=eight/lifetime	F26=continuous monthly rental		

Dispensing

This manual specifies when accessories or components are included in the maximum reimbursement amount (MRA) of certain base codes (i.e., wheelchairs, standers, speech generating devices). These accessories or components should be included at the time of initial dispensing of the equipment. No additional reimbursement will be made for these accessories or components within 90 days of dispensing the base item. If an included accessory is required within 90 days of dispensing the original item, the equipment provider should supply the accessory or component at no additional charge to the member.

Coverage Guidelines

Medical Supplies

Department
of Health

4.1 Medical/Surgical Supplies

Items located in Sections 4.1, 4.2, 4.3, and 5.0 are included in the NYRx transition. After April 1, 2023, claims for MMC members for items in these sections will be reimbursed through NYRx or DMEPOS FFS providers and billed directly to Medicaid. All prior approval/authorization systems or procedures are in effect as for current FFS members.

Adhesive Tape/Remover

A4450	Tape, non-waterproof, per 18 square inches
A4452	Tape, waterproof, per 18 square inches
A4455	Adhesive remover or solvent (for tape, cement or other adhesive), per ounce

Antiseptics

A4244	Alcohol or peroxide, per pint
A4245	Alcohol wipes, per box (100's)
A4246	Betadine or PhisoHex solution, per pint

Breast Pumps

Include all necessary supplies and collection containers (kit). Rental of hospital grade breast pumps is limited to Durable Medical Equipment vendors.

E0602 ^{F3}	Breast pump, manual, any type
---------------------	-------------------------------

The manual pump must:

- Not be a bulb-type manual pump
- Have a suction source that is independent of the collection container and the pump cylinder cannot be used as a milk collecting container
- Be packaged pre-assembled with all parts necessary for pumping with a minimum of one hand and be intended for a single user
- Be lightweight and portable requiring no electricity
- Have safety precautions to prevent suction from getting too high, > 250 mm Hg
- Have a comfort cushion and spring or similar for easier hand pumping
- Include breast flanges that are either adjustable/flexible or come in at least two (2) sizes to accommodate different breast sizes with no sharp edges
- Include a collection bottle of four to six ounces with a spill proof cap and standard-size opening and be bisphenol-A (BPA) and DHEP-free
- Contain collection bottle(s) and flanges made of medical grade quality to allow for repeated boiling and/or dishwasher cleaning which are scratch resistant and non-breakable

The manual pedal pump must:

Coverage Guidelines

Medical Supplies

Department
of Health

- Be an easy-to-assemble wooden pedal pump which requires no electricity and is powered by the leg and foot muscles. This pump can be useful for mothers with compromised hand or arm movements
- Include an express spring for easier use
- Work with a double pumping collection kit

E0603 ^{F2}	#Breast pump, electric (AC and/or DC), any type
---------------------	---

The electric personal use/single-user pump must:

- Be lightweight and portable. The total weight of furnished assembly should not exceed 10 pounds
- Be packaged pre-assembled with all parts necessary for pumping. Assembly includes but not limited to pump motor unit, minimum 5 feet-long electric cord, and double pumping collection kit
- Operate on a 110-volt household current and be UL listed
- Have an adjustable suction pressure between 50 mm Hg and 250 mm Hg at the breast shield during use; a suction range just at the low or high end of the range is not acceptable
- Have an automatic mechanism to prevent suction greater than 250 mm Hg when used according to manufacturer's instructions to prevent nipple trauma
- Have a mechanism for automatic release of suction for safety
- Have variable/adjustable cycling not less than 30 cycles per minute; one fixed cycling time is not acceptable
- Have single and double pumping capacity and capable of maintaining a consistent vacuum (no pressure change) as the collection container fills regardless of the container size and whether single or double pumping
- Have double pumping capacity, which is simultaneous, not alternating
- Have a visible breast milk pathway and no milk can contact the internal pump-motor unit parts at any time when the product is used per manufacturer instructions
- Include breast flanges that are either adjustable/flexible or if rigid, come in at least two (2) sizes to accommodate different breast sizes with no sharp edges
- Include a collection bottle of four to six ounces with a spill proof cap and standard-size opening and be bisphenol-A (BPA) and DHEP-free
- Include a durable soft-sided carrying case with a storage compartment to hold pumping accessories and an insulated cooling compartment including freezer packs for storing expressed breast milk; this is recommended especially for women returning to work or school
- Include a battery option and adapter that can be used as an alternate power source other than electric; this is recommended for flexibility of pumping

Coverage Guidelines

Medical Supplies

Department
of Health

Minimum Breast Pump Specifications for Single User/Multi-User* Double Pumping Kits *Use with hospital grade rentals. The kit must:

- Include breast flanges that are either adjustable/flexible or if rigid, come in at least two (2) sizes to accommodate different breast sizes with no sharp edges
- Be packaged pre-assembled with all accessories necessary for pumping two breasts simultaneously or only one breast manually
- Include at least two collection bottles of four (4) to six (6) ounces with a spill-proof cap and standard-sized opening and be bisphenol-A (BPA) and DHEP-free
- Contain collection bottle(s) and flanges made of medical grade quality to allow for repeated boiling and/or dishwasher cleaning which are scratch resistant and non-breakable
- Have durable tubing designed for long-term pumping use
- Design and materials of the furnished assembly shall allow viewing the breast milk pathway
- Include an adapter that can be used as an alternate power source other than electric; this is recommended and may come as part of pump assembly or pumping kit

A4287	Disposable collection and storage bag for breast milk, any size, any type, each
-------	---

Canes/Crutches/Accessories

A4635	Underarm pad, crutch, replacement, each
A4636	Replacement, handgrip, cane, crutch or walker, each
A4637	Replacement, tip, cane, crutch, or walker, each
E0100 ^{F4}	#Cane, includes canes of all materials, adjustable or fixed, with tip
E0105 ^{F4}	#Cane, quad or three-prong, includes canes of all materials, adjustable or fixed, with tips (over 31" height, no rotation option)
E0110 ^{F3}	Crutches, forearm, includes crutches of various materials, adjustable or fixed, pair, complete with tips and hand grips (over 23" height, no rotation option)
E0111 ^{F3}	Crutch, forearm, includes crutches of various materials, adjustable or fixed, each, with tip and handgrip (over 23" height, no rotation option)
E0112 ^{F3}	Crutches, underarm, wood, adjustable or fixed, pair, with pads, tips and hand grips
E0113 ^{F3}	Crutch, underarm, wood, adjustable or fixed, each, with pad, tip and handgrip
E0114 ^{F3}	Crutches, underarm, other than wood, adjustable or fixed, pair, with pads, tips and hand grips
E0116 ^{F3}	Crutch, underarm, other than wood, adjustable or fixed, with pad, tip, handgrip, with or without shock absorber, each

Incontinence Appliances and Care Supplies

A4310	Insertion tray without drainage bag and without catheter (accessories only) each
A4311	Insertion tray without drainage bag with indwelling catheter, Foley type, two-way latex with coating (Teflon, silicone, silicone elastomer or hydrophilic, etc.) each
A4314	Insertion tray with drainage bag with indwelling catheter, Foley type, two-way latex with coating (Teflon, silicone, silicone elastomer or hydrophilic, etc.) each
A4320	Irrigation tray with bulb or piston syringe, any purpose each

Coverage Guidelines

Medical Supplies

Department
of Health

A4322	Irrigation syringe, bulb or piston, each
A4326	Male external catheter with integral collection chamber, any type, each
A4328	Female external urinary collection device; pouch, each
A4331	Extension drainage tubing, any type, any length, with connector/adaptor, for use with urinary leg bag or urostomy pouch, each
A4333	Urinary catheter anchoring device, adhesive skin attachment, each
A4334	Urinary catheter anchoring device, leg strap, each
A4335	Incontinence supply: miscellaneous
A4338	Indwelling catheter; Foley type, two-way latex with coating (Teflon, silicone, silicone elastomer, or hydrophilic, etc.), each
A4344	Indwelling catheter; Foley type, two-way, all silicone, each
A4346	Indwelling catheter; Foley type, three way for continuous irrigation, each
A4349	Male external catheter, with or without adhesive, disposable, each
A4351	Intermittent urinary catheter; straight tip, with or without coating (Teflon, silicone, silicone elastomer, or hydrophilic, etc.), each
A4352	Intermittent urinary catheter; coude (curved) tip, with or without coating (Teflon, silicone, silicone elastomer, or hydrophilic, etc. each (Covered for self-catheterization when the ordering practitioner documents treatment failure with straight tip (A4351) intermittent catheters)
A4353	Intermittent urinary catheter, with insertion supplies, each
A4354	Insertion tray with drainage bag but without catheter, each

External Urinary Supplies

A4356 ^{F5}	External urethral clamp or compression device (not to be used for catheter clamp), each
A4357	Bedside drainage bag, day or night, with or without anti-reflux device, with or without tube, each
A4358	Urinary drainage bag; leg or abdomen, vinyl, with or without tube, with straps, each

Ostomy Supplies

These codes must be billed for ostomy care only

A4361	#Ostomy faceplate, each
A4362	#Skin barrier; solid 4x4 or equivalent, each
A4363	#Ostomy clamp, any type, replacement only, each
A4364	#Adhesive, liquid, or equal, any type, per ounce
A4366	#Ostomy vent, any type, each
A4367	#Ostomy belt, each
A4368	#Ostomy filter, any type, each
A4369	#Ostomy skin barrier, liquid (spray, brush, etc.), per ounce
A4371	#Ostomy skin barrier, powder, per ounce
A4372	#Ostomy skin barrier, solid 4x4 or equivalent, standard wear, with built-in convexity, each
A4373	#Ostomy skin barrier, with flange (solid, flexible or accordion), with built-in convexity, any size, each
A4375	#Ostomy pouch, drainable, with faceplate attached, plastic, each
A4376	#Ostomy pouch, drainable, with faceplate attached, rubber, each
A4377	#Ostomy pouch, drainable, for use on faceplate, plastic, each
A4378	#Ostomy pouch, drainable, for use on faceplate, rubber, each

A4382	#Ostomy pouch, urinary, for use on faceplate, heavy plastic, each
A4383	#Ostomy pouch, urinary, for use on faceplate, rubber, each
A4384	#Ostomy faceplate equivalent, silicone ring, each
A4385	#Ostomy skin barrier, solid 4x4 or equivalent, extended wear, without built-in convexity, each
A4387	#Ostomy pouch closed, with barrier attached, with built-in convexity (1 piece), each
A4388	#Ostomy pouch, drainable, with extended wear barrier attached, without built-in convexity (1 piece) each
A4389	#Ostomy pouch, drainable, with barrier attached, with built-in convexity (1 piece), each
A4390	#Ostomy pouch, drainable, with extended wear barrier attached, with built-in convexity (1 piece), each
A4391	#Ostomy pouch, urinary, with extended wear barrier attached, (1 piece), each
A4392	#Ostomy pouch, urinary, with standard wear barrier attached, with built-in convexity (1 piece), each
A4393	#Ostomy pouch, urinary, with extended wear barrier attached, with built-in convexity (1 piece), each
A4394	#Ostomy deodorant for use in ostomy pouch, liquid, per fluid ounce
A4395	#Ostomy deodorant for use in ostomy pouch, solid, per tablet
A4396	#Ostomy belt with peristomal hernia support
A4397	#Ostomy irrigation supply; sleeve, each
A4398	#Ostomy irrigation supply; bag, each
A4399 ^{F10}	#Ostomy irrigation supply; cone/catheter, including brush
A4400	#Ostomy irrigation set
A4402	#Lubricant, per ounce
A4404	#Ostomy ring, each
A4405	#Ostomy skin barrier, non-pectin based, paste, per ounce
A4406	#Ostomy skin barrier, pectin-based, paste, per ounce
A4407	#Ostomy skin barrier, with flange (solid, flexible, or accordion), extended wear, with built-in convexity, 4 x 4 inches or smaller, each
A4408	#Ostomy skin barrier, with flange (solid, flexible, or accordion), extended wear, with built-in convexity, larger than 4 x 4 inches, each
A4409	#Ostomy skin barrier, with flange (solid, flexible or accordion), extended wear, without built-in convexity, 4 x 4 inches or smaller, each
A4410	#Ostomy skin barrier, with flange (solid, flexible or accordion), extended wear, without built-in convexity, larger than 4 x 4 inches, each
A4411	#Ostomy skin barrier, solid 4x4 or equivalent, extended wear, with built-in convexity, each
A4412	#Ostomy pouch, drainable, high output, for use on a barrier with flange (2-piece system), without filter, each (used after ostomy surgery)
A4413	#Ostomy pouch, drainable, high output, for use on a barrier with flange (2-piece system), with filter, each (used after ostomy surgery)
A4414	#Ostomy skin barrier, with flange (solid, flexible or accordion), without built-in convexity, 4 x 4 inches or smaller, each
A4415	#Ostomy skin barrier, with flange (solid, flexible or accordion), without built-in convexity, larger than 4 x 4 inches, each

A5093	#Ostomy accessory; convex insert, each
-------	--

Additional Incontinence Appliances/Supplies

A4457 ^{F7}	Enema tube, with or without adapter, any type, replacement only, each
A4458 ^{F7}	#Enema bag with tubing, reusable
A5105	#Urinary suspensory with leg bag, with or without tube, each
A5112	Urinary leg bag; latex each
A5113	Leg strap; latex, replacement only, per set
A5114	Leg strap; foam or fabric, replacement only, per set
A5120	Skin barrier, wipes or swabs, each (Billed for ostomy care only)
A5121	Skin barrier; solid, 6x6 or equivalent, each
A5122	Skin barrier; solid, 8x8 or equivalent, each
A5126	Adhesive or non-adhesive; disc or foam pad each
A5131 ^{F10}	Appliance cleaner, incontinence and ostomy appliances, per 16 oz.
A5200	Percutaneous catheter/tube anchoring device, adhesive skin attachment each

Commode Accessories

E0160 ^{F3}	#Sitz type bath, or equipment, portable, used with or without commode
E0167 ^{F3}	#Pail or pan for use with commode chair, replacement only
E0275 ^{F4}	#Bed pan, standard, metal or plastic
E0276 ^{F4}	#Bed pan, fracture, metal or plastic
E0325 ^{F3}	#Urinal; male, jug-type, any material
E0326 ^{F3}	#Urinal; female, jug-type, any material

Diabetic Diagnostics

A4233 ^{F10}	#Replacement battery, alkaline (other than j cell), for use with medically necessary home blood glucose monitor owned by patient, each
A4234 ^{F10}	#Replacement battery, alkaline, j cell, for use with medically necessary home blood glucose monitor owned by patient, each
A4235 ^{F10}	#Replacement battery, lithium, for use with medically necessary home blood glucose monitor owned by patient, each
A4250	Urine test or reagent strips or tablets, (100 tablets or strips) each
A4252	#Blood ketone test or reagent strip, each
A4253	Blood glucose test or reagent strips for home blood glucose monitor, per 50 strips <ul style="list-style-type: none"> Only the coordinating blood glucose test strips for E2100 are reimbursed using HCPCS code A4253 The supporting documentation and fiscal order must indicate the patient uses E2100, glucometer with voice synthesizer
A4256 ^{F10}	#Normal, low and high calibrator solution/chips
E2100 ^{F3}	#Blood glucose monitor with integrated voice synthesizer (Covered for diabetic members with a diagnosis of blindness for low vision)

A9275	#Home glucose disposable monitor, includes test strips each
-------	---

Coverage Criteria:

Coverage Guidelines

Medical Supplies

Department
of Health

- Disposable glucometers are reimbursable when the ordering practitioner documents in the member's file **one** of these diagnoses or situations:
 1. Person newly diagnosed with diabetes
 2. Diagnosed with gestational diabetes
 3. Diagnosed with Type 2 diabetes
 4. In medical need of a treatment plan change from a traditional to disposable home glucometer
 5. In medical need of an emergency replacement glucometer while awaiting prior approval of a traditional glucometer
 6. A child who requires testing in school

Non-Covered Indications:

- Disposable glucometers are **not** reimbursable as a back-up glucometer
- Medicaid payment is **only** available for either a traditional glucometer or a disposable glucometer. If a disposable glucometer is dispensed, no additional strips are reimbursable.

Diabetic Daily Care

A4206	Syringe with needle, sterile 1cc, each (Pharmacy only)
A4207	Syringe with needle, sterile 2cc, each (Pharmacy only)
A4208	Syringe with needle, sterile 3cc, each (Pharmacy only)
A4209	Syringe with needle, sterile 5cc or greater, each (Pharmacy only)
A4211	Supplies for self-administered injections (limited to supplies not otherwise listed) (Pharmacy only)
A4213	Syringe, sterile, 20cc or greater, each (Pharmacy only)
A4215	Needle, sterile, any size, each (Pharmacy only)
A4230	#Infusion set for external insulin pump, non-needle cannula type, each (60 day supply)
A4231	#Infusion set for external insulin pump, needle type, each (60 day supply)
A4232	#Syringe with needle for external insulin pump, sterile, 3 cc, each (60 day supply)
A4244	Alcohol or peroxide, per pint
A4245	Alcohol wipes, per box (100's)
A4657	Syringe with or without needle, each (any size) (Pharmacy only)
A4258	Spring-powered device for lancet, each
A4259	Lancets, per box of 100
S5560	#Insulin delivery device, reusable pen; 1.5ml size (Pharmacy only)
S5561	#Insulin delivery device, reusable pen; 3ml size (Pharmacy only)
S8490	Insulin syringes (100 syringes, any size) (low dose, 0.3cc – 0.5cc) (Pharmacy only)

Continuous Glucose Monitoring (CGM)

Preferred Diabetic Supply Program

Certain CGM and related diabetic supply products (disposable insulin delivery systems) have been added to the Preferred Diabetic Supply Program.

Effective June 3, 2024, Continuous Glucose Monitors and related supplies found in the [Preferred Diabetic Supply](#)

Coverage Guidelines

Medical Supplies

[Program](#) will only be available through a pharmacy provider. Durable Medical Equipment, Prosthetics, Orthotics and Supply (DMEPOS) providers will no longer be able to dispense CGMs and related supplies found on the PDSP such as Dexcom G6, G7, and Freestyle Libre. Medicaid will no longer accept prior approval requests for CGMs and supplies from DMEPOS providers found in the PDSP. These requests will be inactivated and referred to the PDSP.

Medtronic CGMs and related supplies are not currently reimbursed by the PDSP and authorizations for these CGMs and supplies will continue to be issued through the Dispensing Validation System (DVS) and can be billed by DMEPOS and pharmacy providers using HCPCS codes E2102 and A4238.

A4238 ^{F9}	#Supply allowance for adjunctive, non-implanted continuous glucose monitor (cgm), includes all supplies and accessories, 1 month supply = 1 unit of service
E2102 ^{F4}	#Adjunctive, non-implanted continuous glucose monitor or receiver

CGM Coverage Guidelines

CGM may be available for members who are diagnosed with diabetes and meet all the following criteria:

1. Member with a diagnosis of gestational diabetes, or
2. Member with a diagnosis of type 1 or type 2 diabetes, who meet all the following criteria: :
 - Are under the care of an endocrinologist, or an enrolled Medicaid provider with experience in diabetes treatment, who orders the device.
 - Are compliant with regular visits to review CGM data with their provider.
 - Are on an insulin treatment plan or an insulin pump.
 - Are able, or have a caregiver who is able, to hear and view CGM alerts and respond appropriately.

Additional CGM Guidelines:

- Only providers who have had a recent visit with their patient (within the last six months) should order a CGM.
- Prescribers should be actively monitoring their patients to ensure adherence to treatment plans. Diabetes education is strongly encouraged.
- Providers must document CGM data in patients' charts. All collected data should be used in clinical decisions.
- Insulin pump replacement will be considered when medically necessary, outside of manufacturer's warranty, and not for recent technology upgrades. Repairs will be funded if outside of manufacturer's warranty and cost effective (< 50 percent of fee).
- Ancillary devices (such as, but not limited to, phones, tablets, and personal computers) are not covered.

Providers should verify manufacturer's age requirements for the CGM device ordered.

Family Planning Products

A4266	Diaphragm for contraceptive use (kit, e.g., All Flex, Coil, Flat Spring) (Pharmacy only)
A4267	Contraceptive supply, condom, male, each
A4268	Contraceptive supply, condom, female, each

Gloves

A4927	#Gloves, non-sterile, per 100
-------	-------------------------------

Coverage Guidelines

Medical Supplies

Department
of Health

A4930	#Gloves, sterile, per pair
-------	----------------------------

Coverage Criteria:

- Gloves are reimbursable only when medically necessary for use by the member.
- Sterile gloves are only reimbursable when medically necessary to perform a sterile procedure.
- Gloves are not reimbursable as personal protective equipment for employees/caregivers or when included in a kit or tray (e.g., catheter or tracheostomy)

Heat/Cold Application

E0210 ^{F4}	#Electric heat pad, standard
E0215 ^{F4}	#Electric heat pad, moist
A9273 ^{F6}	Hot water bottle, ice cap or collar, heat and/or cold wrap, any type (ice cap/or collar not reimbursable)

Synthetic Sheep Skin and Decubitus Care

E0188 ^{F13}	Synthetic sheepskin pad
E0191 ^{F10}	Heel or elbow protector, each

Mastectomy Care

L8000 ^{F24}	Breast prosthesis, mastectomy bra, without integrated breast prosthesis form
L8001 ^{F24}	Breast prosthesis, mastectomy bra, with integrated breast prosthesis form, unilateral, any size, any type
L8002 ^{F22}	Breast prosthesis, mastectomy bra, with integrated breast prosthesis form, bilateral, any size, any type
L8020 ^{F22}	Breast prosthesis, mastectomy form
L8030 ^{F22}	Breast prosthesis, silicone or equal, without integral adhesive
L8031 ^{F22}	Breast prosthesis, silicone or equal, with integral adhesive
S8460 ^{F24}	Camisole, post-mastectomy

Respiratory/Tracheostomy Care Supplies

Note: Supplies/parts are for patient-owned equipment only

A4605	Tracheal suction catheter, closed system each (for mechanical ventilation patient)
A4481	#Tracheostoma filter, any type, any size, each (i.e., "artificial nose," heat and moisture exchanger, TheraVent, Humid-vent, Povox stomafilter, Bruce-Foam stomafilter). - If ventilator-dependent, included in the 30-day ventilator rental fee. - Not to be billed in conjunction with E0465 or E0466
A4614 ^{F8}	Peak expiratory flow meter, hand-held, each
A4615	Cannula, nasal, each For patient owned respiratory equipment
A4616	Tubing, (Oxygen), per foot For patient owned respiratory equipment
A4619	Face Tent, each For patient owned respiratory equipment
A4620	Variable Concentration Mask, each

Coverage Guidelines

Medical Supplies

Department
of Health

	For patient owned respiratory equipment
A4623	Tracheostomy, inner cannula, each
A4624	Tracheal suction catheter, any type, other than closed system, each (tray)
A4625	Tracheostomy care kit for new tracheostomy, each Consists of all necessary supplies for tracheostomy care. Includes but not limited to: tray, gloves, brush, gauze sponges, gauze tracheostomy dressing, pipe cleaners, cotton tip applicators, 30" twill tape, gauze roll and tracheostomy tube holder
A4626	Tracheostomy cleaning brush, each
A4628	Oropharyngeal suction catheter, each (e.g., Yankauer)
A4629	Tracheostomy care kit for established tracheostomy, each Consists of all necessary supplies for tracheostomy care. Includes but not limited to: tray, gloves, brush, gauze sponges, gauze tracheostomy dressing, pipe cleaners, cotton tip applicators, 30" twill tape and tracheostomy tube holder
A7000	Canister, disposable, used with suction pump, each
A7002	Tubing, used with suction pump, each (Suction connection tubes)
A7003	Administration kit, with small volume nonfiltered pneumatic nebulizer, disposable, each
A7004	Small volume nonfiltered pneumatic nebulizer, disposable, each
A7005 ^{F7}	#Administration set, with small volume non-filtered pneumatic nebulizer, non-disposable
A7007	Large volume nebulizer, disposable, unfilled, used with aerosol compressor, each
A7013	Filter, disposable, used with aerosol compressor, each
A7014 ^{F8}	Filter, non-disposable, used with aerosol compressor or ultrasonic generator
A7015 ^{F8}	Aerosol mask, used with DME nebulizer
A7038	Filter, disposable, used with positive airway pressure device, each
A7039 ^{F21}	Filter, non-disposable, used with positive airway pressure device, each
A7048	#Vacuum drainage collection unit and tubing kit; including all supplies needed for collection unit change, for use with implanted catheter, each For use with implanted pleural or peritoneal catheter, not for use with peritoneal dialysis
A7501	#Tracheostoma valve, including diaphragm, each
A7502	#Replacement diaphragm/faceplate for tracheostoma valve, each
A7503 ^{F16}	Filter holder or filter cap, reusable, for use in a tracheostoma heat and moisture exchange system, each
A7504	Filter for use in a tracheostoma heat and moisture exchange system, each
A7507	Filter holder and integrated filter without adhesive, for use in a tracheostoma heat and moisture exchange system, each
A7508	Housing and integrative adhesive, for use in a tracheostoma heat and moisture exchange system and/or with a tracheostoma valve, each
A7523 ^{F5}	Tracheostomy shower protector, each
A7525	Tracheostomy mask, each
A7526	Tracheostomy tube collar/holder, each
E0605 ^{F4}	#Vaporizer, room type Covered for the treatment of respiratory illness; warm or cool mist
L8512	Gelatin capsules or equivalent, for use with tracheoesophageal voice prosthesis, replacement only, per 10
L8513	Cleaning device used with tracheoesophageal voice prosthesis, pipet, brush, or equal, replacement only, each

Coverage Guidelines

Medical Supplies

Department
of Health

S8100 ^{F21}	Holding chamber or spacer for use with an inhaler or nebulizer; without mask
S8101 ^{F21}	Holding chamber or spacer for use with an inhaler or nebulizer; with mask, each
S8189	Tracheostomy supply, not otherwise classified

Support Goods

A4463	Surgical dressing holder, reusable, each
A4495 ^{F7}	#Surgical stockings thigh length, each
A4500 ^{F7}	#Surgical stockings below knee length, each
A4510 ^{F7}	#Surgical stockings full length, each
A4565 ^{F10}	Slings
A4570	Splint each
L0120 ^{F13}	#Cervical, flexible, non-adjustable, prefabricated, off-the-shelf (foam collar)

Thermometers

A4931	Oral thermometer, reusable, any type, each
A4932	Rectal thermometer, reusable, any type, each

Underpads/Diapers/Liners

Coverage Criteria:

- Diapers/Liners and underpads are covered for the treatment of incontinence only when the medical need is documented by the ordering practitioner and maintained in the member's clinical file.

Non-Covered Indications:

- Diapers/Liners will not be covered for children under the age of three as they are needed as part of the developmental process.
- Incontinence liners are not menstrual pads. Personal hygiene products such as menstrual pads are not covered.

General Guidelines:

- The dispenser must maintain documentation of measurements (e.g., waist/hip size, weight) which supports reimbursement for the specific size of diaper/liner dispensed.
- Up to a total of 250 disposable diapers and/or liners are allowed per 30 days, providing for up to 8 changes per day. Claims for any combination of diapers and/or liners over 250 per 30 days will be denied.
- The quantity limits reflect amounts required to meet the medical need for a member's incontinence treatment plan.

To assist practitioners with ordering incontinence products, a draft ordering tool has been developed for monthly quantities for each covered diagnosis. Please refer to the [ordering tool](#) for additional information.

See following link to the November 2020 Medicaid Update article regarding the New York State Incontinence Supply Program Requirements:

https://www.health.ny.gov/health_care/medicaid/program/update/2020/docs/mu_no16_nov20.pdf

A4335	Incontinence supply; miscellaneous, each
A4554	#Disposable under pads, all sizes, (e.g., Chux's), each
T4521	#Adult sized disposable incontinence product, brief/diaper, small, each (waist/hip 20"-34")
T4522	#Adult sized disposable incontinence product, brief/diaper, medium, each (waist/hip 28"-47")

Coverage Guidelines

Medical Supplies

Department
of Health

T4523	#Adult sized disposable incontinence product, brief/diaper, large, each (waist/hip 40"-59")
T4524	#Adult sized disposable incontinence product, brief/diaper, extra-large, each (waist/hip 60"-62")
T4529	#Pediatric sized disposable incontinence product, brief/diaper, small/medium size, each (12-23lbs)
T4530	#Pediatric sized disposable incontinence product, brief/diaper, large size, each (24-35 lbs)
T4533	#Youth sized disposable incontinence product, brief/diaper, each (>35 lbs)
T4535	#Disposable liner/shield/guard/pad/undergarment, for incontinence, each
T4537	#Incontinence product, protective underpad, reusable, bed size, each
T4539	#Incontinence product, diaper/brief, reusable, any size, each
T4540	#Incontinence product, protective underpad, reusable, chair size, each
T4543	Adult sized disposable incontinence product, protective brief/diaper, above extra-large, each (waist/hip ≥ 62")

Wound Dressings

A6010	#Collagen based wound filler, dry form, sterile, per gram of collagen
A6011	Oral thermometer, reusable, any type, each
A6021	#Collagen dressing, sterile, size 16 sq. in. or less, each
A6022	#Collagen dressing, sterile, size more than 16 sq. in. but less than or equal to 48 sq. in., each
A6023	#Collagen dressing, sterile, size more than 48 sq. in., each
A6024	#Collagen dressing wound filler, sterile, per 6 inches
A6196	Alginate or other fiber gelling dressing, wound cover, sterile, pad size 16 sq. in. or less, each dressing
A6197	Alginate or other fiber gelling dressing, wound cover, sterile, pad size more than 16 but less than or equal to 48 sq. in., each dressing
A6198	Alginate or other fiber gelling dressing, wound cover, sterile, pad size more than 48 sq. in., each dressing
A6199	Alginate or other fiber gelling dressing, wound filler, sterile, per 6 inches
A6203	Composite dressing, sterile, pad size 16 sq. in. or less, with any size adhesive border, each dressing
A6204	Composite dressing, sterile, pad size more than 16 but less than or equal to 48 sq. in., with any size adhesive border, each dressing
A6205	Composite dressing, sterile, pad size more than 48 sq. in., with any size adhesive border, each dressing
A6206	Contact layer, sterile, 16 sq. in., or less, each dressing
A6207	Contact layer, sterile, more than 16 but less than or equal to 48 sq. in., each dressing
A6208	Contact layer, sterile, more than 48 sq. in., each dressing
A6209	Foam dressing, wound cover, sterile, pad size 16 sq. in. or less, without adhesive border, each dressing
A6210	Foam dressing, wound cover, sterile, pad size more than 16 but less than or equal to 48 sq. in., without adhesive border, each dressing
A6211	Foam dressing, wound cover, sterile, pad size more than 48 sq. in., without adhesive border, each dressing
A6212	Foam dressing, wound cover, sterile, pad size 16 sq. in. or less, with any size adhesive border, each dressing
A6213	Foam dressing, wound cover, sterile, pad size more than 16 but less than or equal to 48 sq. in., with any size adhesive border, each dressing

4.2 Enteral Therapy

Items located in Sections 4.1, 4.2, 4.3, and 5.0 are included in the NYRx transition. After April 1, 2023, claims for MMC members for items in these sections will be reimbursed through NYRx or DMEPOS FFS providers and billed directly to Medicaid. All prior approval/authorization systems or procedures are in effect as for current FFS members.

Enteral Formulae and Enteral Supplies

B4034	#Enteral feeding supply kit; syringe fed, per day
B4035	#Enteral feeding supply kit; pump fed, per day
B4036	#Enteral feeding supply kit; gravity fed, per day <ul style="list-style-type: none">- Enteral feeding supply kits (B4034-B4036) include whatever supplies are necessary to administer the specific type of feeding and maintain the feeding site. Items included in the supply kit codes are not limited to pre-packaged kits bundled by manufacturers or distributors. This includes, but is not limited to: syringes, measuring containers, tip adapters, anchoring device, gauze pads, protective-dressing wipes, tape, feeding bags/container, administration set tubing, extension tubing, and tube cleaning brushes.- Supply kits being dispensed and billed must correspond to the mode of administration
B4081	#Nasogastric tubing with stylet
B4082	#Nasogastric tubing without stylet
B4083	#Stomach tube - Levine type
B4087	#Gastrostomy/jejunostomy tube, standard, any material, any type, each
B4088 ^{F13}	#Gastrostomy/jejunostomy tube, low-profile, any material, any type, each For members who cannot tolerate the size of a standard gastrostomy tube or who have experienced failure of a standard gastrostomy tube. This code is for replacement in the patient's home and should not be billed when the tube is replaced in the physician's office, ER or facility with an all-inclusive rate. This kit includes tube/ button/ port, syringes, all extensions and/or decompression tubing and obturator if indicated
B4100	#Food thickener, administered orally, per ounce
B4105	In-line cartridge containing digestive enzyme(s) for enteral feeding, each The member must have a diagnosis of exocrine pancreatic insufficiency and gastrostomy/jejunostomy tube feedings with compatible enteral formulas (maximum of 2 cartridges per day)
B4149	*Enteral formula, manufactured blenderized natural foods with intact nutrients, includes proteins, fats, carbohydrates, vitamins and minerals, may include fiber, administered through an enteral feeding tube, 100 calories = 1 unit
B4150	*Enteral formula, nutritionally complete with intact nutrients, includes proteins, fats, carbohydrates, vitamins and minerals, may include fiber, administered through an enteral feeding tube, 100 calories = 1 unit
B4152	*Enteral formula, nutritionally complete, calorically dense (equal to or greater than 1.5 kcal/ml) with intact nutrients, includes proteins, fats, carbohydrates, vitamins and minerals, may include fiber, administered through an enteral feeding tube, 100 calories = 1 unit
B4153	*Enteral formula, nutritionally complete, hydrolyzed proteins (amino acids and peptide chain), includes fats, carbohydrates, vitamins and minerals, may include fiber, administered through an enteral feeding tube, 100 calories = 1 unit

Coverage Guidelines

Medical Supplies

Department
of Health

B4154	*Enteral formula, nutritionally complete, for special metabolic needs, excludes inherited disease of metabolism, includes altered composition of proteins, fats, carbohydrates, vitamins and/or minerals, may include fiber, administered through an enteral feeding tube, 100 calories = 1 unit
B4155	*Enteral formula, nutritionally incomplete/modular nutrients, includes specific nutrients, carbohydrates (e.g. glucose polymers), proteins/amino acids (e.g. glutamine, arginine), fat (e.g. medium chain triglycerides) or combination, administered through an enteral feeding tube, 100 calories = 1 unit
B4157	*Enteral formula, nutritionally complete, for special metabolic needs for inherited disease of metabolism, includes proteins, fats, carbohydrates, vitamins and minerals, may include fiber, administered through an enteral feeding tube, 100 calories = 1 unit
B4158	*Enteral formula, for pediatrics, nutritionally complete with intact nutrients, includes proteins, fats, carbohydrates, vitamins and minerals, may include fiber and/or iron, administered through an enteral feeding tube, 100 calories = 1 unit
B4159	*Enteral formula, for pediatrics, nutritionally complete soy based with intact nutrients, includes proteins, fats, carbohydrates, vitamins and minerals, may include fiber and/or iron, administered through an enteral feeding tube, 100 calories = 1 unit
B4160	*Enteral formula, for pediatrics, nutritionally complete calorically dense (equal to or greater than 0.7 kcal/ml) with intact nutrients, includes proteins, fats, carbohydrates, vitamins and minerals, may include fiber, administered through an enteral feeding tube, 100 calories = 1 unit *Enteral formula, for pediatrics, nutritionally complete calorically dense (equal to or greater than 0.7 kcal/ml) with intact nutrients, includes proteins, fats, carbohydrates, vitamins and minerals, may include fiber, administered through an enteral feeding tube, 100 calories = 1 unit
B4161	*Enteral formula, for pediatrics, hydrolyzed/amino acids and peptide chain proteins, includes fats, carbohydrates, vitamins and minerals, may include fiber, administered through an enteral feeding tube, 100 calories = 1 unit
B4162	*Enteral formula, for pediatrics, special metabolic needs for inherited disease of metabolism, includes proteins, fats, carbohydrates, vitamins and minerals, may include fiber, administered through an enteral feeding tube, 100 calories = 1 unit
B9998	Not otherwise classified enteral supplies
S8265	#Haberman feeder for cleft lip/palate

Enteral Nutritional Formula

Benefit Coverage Criteria is Limited to:

- Members who are **fed via** nasogastric, gastrostomy or jejunostomy **tube**.
- Members with **inborn metabolic disorders**.
- **Children up to 21 years of age**, who require liquid oral nutritional therapy when there is a documented diagnostic condition where caloric and dietary nutrients from food cannot be absorbed or metabolized.
- Adults with a diagnosis of HIV infection, AIDS, or HIV-related illness, or other disease or condition, who are oral-fed, **and who**;
 - require supplemental nutrition, demonstrate documented compliance with an appropriate medical and nutritional plan of care, and have a body mass index (BMI) under 18.5 as defined by the Centers for Disease Control, up to 1,000 calories per day; **or**

Coverage Guidelines

Medical Supplies

Department
of Health

- require supplemental nutrition, demonstrate documented compliance with an appropriate medical and nutritional plan of care, have a body mass index (BMI) under 22 as defined by the Centers for Disease Control, and a documented, unintentional weight loss of 5 percent or more within the previous 6-month period, up to 1,000 calories per day; **or** require total oral nutritional support, have a permanent structural limitation that prevents the chewing of food, and placement of a feeding tube is medically contraindicated

Documentation Requirements:

- The therapy must be an integral component of a documented medical treatment plan and ordered in writing by an authorized practitioner. It is the responsibility of the practitioner to maintain documentation in the member's record regarding the medical necessity for enteral nutritional formula.
- The physician or other appropriate health care practitioner has documented the member's nutritional depletion.
- Medical necessity for enteral nutritional formula must be substantiated by documented physical findings and/or laboratory data (e.g., changes in skin or bones, significant loss of lean body mass, abnormal serum/urine albumin, protein, iron or calcium levels, or physiological disorders resulting from surgery, etc.)
- Documentation for members who qualify for enteral formula benefit must include an established diagnostic condition and the pathological process causing malnutrition and one or more of the following items:
 - a. Clinical findings related to the malnutrition such as a recent involuntary weight loss or a child with no weight or height increase for six months.
 - b. Laboratory evidence of low serum proteins (i.e., serum albumin less than 3 gms/dl; anemia or leukopenia less than 1200/cmm);
 - c. Failure to increase body weight with usual solid or oral liquid food intake

Additional Information:

- Non-standard infant formulas are reimbursable by Medicaid under the appropriate enteral therapy code.
- The calculation for pricing enteral formula is as follows: Number of calories per can divided by 100 equals the number of caloric units per can.
- The Enteral Web Portal and Interactive Voice response (IVR) System are two parts of the enteral product prior authorization system. Payment for those items listed in the procedure code manual marked with an asterisk (*) is dependent upon prior authorization through the automated system. The ordering practitioner must access the portal at <https://medicaidportal.health.ny.gov/> or www.emedny.org home screen or alternatively, use the telephonic IVR system (1-866-211-1736) for the prior authorization number. The fiscal order, including the authorization number, is sent to the dispensing provider. The dispensing provider uses the portal or IVR to verify the information and submit the correct billing code. Requests that do not meet the defined benefit in 18NYCRR 505.5 (g) may be submitted through the prior approval process for consideration.

Coverage Guidelines

Medical Supplies

Department
of Health

The New York State Medicaid Program does not cover enteral nutritional therapy as a convenient food substitute.

- Standard milk-based infant formulas are not reimbursable by Medicaid.

Parenteral Formulae and Parenteral Supplies (Pharmacy Only)

B4164	Parenteral nutrition solution; carbohydrates (dextrose), 50% or less (500 ml = 1 unit), home mix
B4168	Parenteral nutrition solution; amino acid, 3.5%, (500 ml = 1 unit) -home mix
B4172	Parenteral nutrition solution; amino acid, 5.5% through 7%, (500 ml = 1 unit) -home mix
B4176	Parenteral nutrition solution; amino acid, 7% through 8.5%, (500 ml = 1 unit) -home mix
B4178	Parenteral nutrition solution; amino acid, greater than 8.5% (500 ml = 1 unit) -home mix
B4180	Parenteral nutrition solution; carbohydrates (dextrose), greater than 50% (500 ml = 1 unit), home mix
B4185	Parenteral nutrition solution, per 10 grams lipids
B4187	Omegaven, 10g lipids
B4189	Parenteral nutrition solution; compounded amino acid and carbohydrates with electrolytes, trace elements, and vitamins, including preparation, any strength, 10 to 51 grams of protein, premix
B4193	Parenteral nutrition solution; compounded amino acid and carbohydrates with electrolytes, trace elements, and vitamins, including preparation, any strength, 52 to 73 grams of protein, premix
B4197	Parenteral nutrition solution; compounded amino acid and carbohydrates with electrolytes, trace elements, and vitamins, including preparation, any strength, 74 to 100 grams of protein -premix
B4199	Parenteral nutrition solution; compounded amino acid and carbohydrates with electrolytes, trace elements and vitamins, including preparation, any strength, over 100 grams of protein -premix
B4216	Parenteral nutrition; additives (vitamins, trace elements, heparin, electrolytes), home mix, per day
B4220	Parenteral nutrition supply kit, premix, per day
B4222	Parenteral nutrition supply kit, home mix, per day
B4224	Parenteral nutrition administration kit, per day
B5000	Parenteral nutrition solution; compounded amino acid and carbohydrates with electrolytes, trace elements, and vitamins, including preparation, any strength, renal – (Amirosyn RF, NephroAmine, RenAmine) – premix

of Health

B5100	Parenteral nutrition solution; compounded amino acid and carbohydrates with electrolytes, trace elements, and vitamins, including preparation, any strength, hepatic – (FreAmine HBC, HepatAmine) – premix
B5200	Parenteral nutrition solution; compounded amino acid and carbohydrates with electrolytes, trace elements, and vitamins, including preparation, any strength, stress – (branch chain amino acids) – premix
B9999	Not otherwise classified parenteral supplies

4.3 Hearing Aid Battery

Items located in Sections 4.1, 4.2, 4.3 and 5.0 are included in the NYRx transition. After April 1, 2023, claims for MMC members for items in these sections will be reimbursed through NYRx or DMEPOS FFS providers and billed directly to Medicaid. All prior approval/authorization systems or procedures are in effect as for current FFS members.

Note: To be evaluated for pricing by the Medicaid program on a periodic basis at retail less 20 percent. When billing for batteries on the claim form the "Quantity Dispensed" field refers to the individual number of batteries dispensed not number of packages dispensed.

V5266 ^{F9}	Battery for use in hearing device (any type) (up to a 60-day supply may be dispensed on one date of service), each
L8621 ^{F8}	Zinc air battery for use with cochlear implant device and auditory osseointegrated sound processors, replacement, each

4.4, 4.5, 4.6, 4.7 DME, Orthotics, Prescription Footwear, Prosthetics

Please see separate DME, Prosthetics, Orthotics Procedure Code manual:
https://www.emedny.org/ProviderManuals/DME/PDFS/DME_Procedure_Codes.pdf

5.0 Pharmacists as Immunizers

The administration of select vaccines by qualified pharmacists employed by, or under contract with, Medicaid enrolled pharmacies is reimbursable under NYS Medicaid. Administration of vaccines is conducted pursuant to NYS Education Law and regulations (8NYCRR63.9) which permits licensed pharmacists who obtain additional certification to administer vaccinations.

Reimbursement is based on a patient specific or non-patient specific order where available. These orders must be kept on file at the pharmacy. The ordering provider's NPI is required on the claim for the claim to be paid.

Pharmacies must bill the administration and cost of the vaccine using the following procedure codes. NDCs are not to be used to bill the vaccine product. Reimbursement for the product is made at no more than the actual acquisition cost to the pharmacy. No dispensing fee or enrollee copayment applies. Pharmacies must bill with a quantity of "1" and a day supply of "1".

See the vaccine and administration codes on the Pharmacists as Immunizers Fact Sheet for current codes found [here](https://www.health.ny.gov/health_care/medicaid/program/phar_immun_fact.htm):
https://www.health.ny.gov/health_care/medicaid/program/phar_immun_fact.htm
