Section I - Purpose Statement

The purpose of this document is to assist the provider community to understand and comply with the New York State Medicaid (NYS-Medicaid) requirements and expectations for:

- Obtaining Prior Approval.
- Field by Field Instructions for Prior Approval Form (eMedNY 361401)

This document is customized for Dental providers and it should be used by the provider’s billing staff as an instructional as well as a reference tool.
Section II – Instructions for Obtaining Prior Approval

Electronic prior approval requests and responses can be submitted on the HIPAA 278 transaction. The Companion Guide for the HIPAA 278 is available on the www.nyhipaadesk.com website. Click on News & Resources, then eMedNY Phase II HIPAA Transactions. Access to the final determinations will be available though eMedNY eXchange messages or by mail. To sign up for eXchange visit www.emedny.org.

Prior approval requests can also be requested via ePACES. ePACES is an internet-based program available to enrolled Medicaid providers. For information about enrolling in ePACES, contact CSC at (800) 522-5518 or (518) 447-9860. A reference number will be returned to your ePACES screen, which can be later used to check the approval status on ePACES. Visit www.emedny.org for more information.

Paper prior approval request forms have been modified to comply with eMedNY requirements. A supply of the new forms is available by contacting CSC at the number above. Paper prior approval forms, with appropriate attachments, should be sent to Computer Sciences Corporation, PO Box 4600, Rensselaer, NY 12144-4600.

The prior approval number format has changed from 8 to 11 digits. Providers will still be allowed to continue using the eight-digit numbers until the units are exhausted.

This section of the manual describes the preparation and submission of the New York State Medical Assistance (Title XIX) Program Prior Approval Request Form (eMedNY 361401). It is imperative that these procedures are used when completing the forms. Request forms that do not conform to these requirements will not be processed by eMedNY.

Services that require Prior Approval are indicated by a line under the respective Procedure Code in the New York State Procedure Code and Fee Schedule Section of this Manual.

**Receipt of prior approval does NOT guarantee payment. Payment is subject to client’s eligibility and other guidelines.**

Requests for prior approval should be submitted before the date of service. However, sometimes unforeseen circumstances arise that delay the submission of the prior approval request until after the service is provided. If this occurs, the prior approval request must be received by the department within 90 days of the date of service, accompanied by an explanation of why the service was provided before the prior approval request was approved.

A prior approval request will not be processed after 90 days from the date of service unless the provider’s request is delayed due to circumstances outside of the control of
the provider. Such circumstances include the following:

- Litigation
- Medicare/third party insurer processing delays
- Delay in the Client's Medicaid eligibility determination
- Administrative delay by the department or other State agency

The request must give a detailed explanation for the delay. Requests submitted without an explanation will be returned, without action, to the provider.

To reduce processing errors (and subsequent processing delays), please do not run-over writing or typing from one field (box) into another. The displayed sample Prior Approval Request Form is numbered in each field to correspond with the instructions for completing the request.
