### **Prescription Contraceptive Drugs for Family Planning**

Amendments were made to Title 18 NYCRR sections 505.3(d) and (e) to allow for a written order of prescription contraceptives for family planning purposes to be filled 12 times within one year.

Effective November 21, 2019, system enhancements will be implemented to enable prescription contraceptives for family planning purposes to be filled up to 12 times within one year after the date of issuance, provided the prescription is for a one-month supply. Additionally, the system can accommodate dispensing up to a 12-month supply at once within a year.
