

New York State Medicaid Coverage Policy and Billing Guidance for Pharmacy Providers for the 2026-2027 COVID-19 Vaccines

Effective August 27, 2026, NYRx, the New York State Medicaid Pharmacy Program is providing coverage for the 2026-2027 formulations of the COVID-19 vaccine.

The Commissioner has available Standing Orders for the COVID-19 vaccines. Details for each may be found here:

https://www.health.ny.gov/prevention/immunization/providers/standing_orders.htm.

Enrolled pharmacy providers will be reimbursed for vaccine cost and administration when administered to eligible members.

NYRx Vaccine Billing Guidance

This billing guidance may be subject to change. Please continue to monitor New York State Medicaid for both general and COVID-19 vaccine guidance for updates to reimbursement and/or billing instructions. Until further notice, there are *two methods* of billing vaccines:

1. National Drug Codes (NDCs)- *Preferred method for adult vaccine claims and Vaccines for Children (VFC) enrolled provider claims*

- The Medicaid Pharmacy List of Reimbursable Drugs will contain those vaccine NDCs which may be billed to NYRx. The full list can be found by searching at the following website:
<https://www.emedny.org/info/formfile.aspx>.
- NDC billing information can also be found in the following notice:
https://health.ny.gov/health_care/medicaid/program/phar_immun_fact.htm

2. Procedure Codes- *Required method for non-VFC enrolled pharmacies submitting COVID-19 claims for persons under 19 years of age*

- Procedure code information may be found in the *Physician Medicine, Drugs and Drug Administration Procedure Codes Manual* found here:
https://www.emedny.org/ProviderManuals/Physician/PDFS/Physician_Procedure_Codes_Sect2.pdf.
- Please also see the New York State Medicaid Pharmacists as Immunizers Fact Sheet for billing instructions and policy for all vaccines:
https://www.health.ny.gov/health_care/medicaid/program/docs/phar_immun_fact.pdf.

COVID-19 Vaccine Specific

Ordered by a Patient-Specific or Standing Order:

- Pharmacists will submit the claim pursuant to the standing order or patient-specific order with the ***prescriber's NPI in the prescriber ID field.***

Pharmacies must submit claims for vaccines via the National Council for Prescription Drug Programs (NCPDP) D.0 claim format using the appropriate values. See table below:

NCPDP D.0 Claim Segment Field	NDC Billing Value (Preferred Method)	Procedure Billing Value
436-E1 (Product/Service ID Qualifier)	"03"	"09"
407-D7 (Product/Service ID)	NDC of vaccine administered*	Code of Vaccine or administration
442-E7 (Quantity Dispensed)	Numeric Volume	"1"
405-D5 (Day Supply)	"1"	"1"
411-DB (Prescriber ID)	Prescriber or Pharmacy NPI**	Prescriber or Pharmacy NPI**
444-E9 (Pharmacist ID)	Pharmacist NPI	Pharmacist NPI

*Vaccine administration fee is included in the reimbursement when billing vaccine as an NDC.

** Dependent on if the vaccine is ordered by a pharmacist or via Patient-Specific/Standing Order

Please see the [NYS Medicaid Pharmacy Manual Policy Guidelines](#) document for further guidance on origin code and serial number. Enter a value of "5" in field 419-DJ (Prescription Origin Code) and a value of "99999999" in field 454- EK (Scheduled Prescription ID Number) for Standing Order or Pharmacist ordered COVID-19 vaccines. NCPDP D.0 Companion Guide can be found [here](#).

Medicaid Managed Care (MMC) Vaccine Billing

NYRx should be billed for any COVID-19 vaccine administered by a pharmacy provider. For non-pharmacy providers, individual MMC plans should be contacted for their specific reimbursement and billing guidance. Plan information can be found by visiting the following [website](#).
