Physician Reimbursement for Eylea - CPT-4 Code Q2046

Physicians who administered Eylea to dually eligible patients may have been paid partial Medicare Part B coinsurance instead of the full Medicare Part B coinsurance for dates of service July 1, 2012 thru December 31, 2012 (CPT-4 code Q2046). The price on the Medicaid payment file has recently been adjusted so that Medicaid payment will be made at the full Part B coinsurance amount when appropriate, i.e., the provider's acquisition cost is more than the Medicare approved amount. Providers who may have been paid incorrectly will need to submit claim adjustments to Medicaid for additional monies owed. In accordance with state law, providers must report their actual acquisition cost (by invoice) on their Medicaid claim.

Providers must use Delay Reason Code 11 for Eylea claim adjustments when billing CPT-4 code Q2046. Please note that providers will have 60 days from the date of this posting to submit claim adjustments.
