Provider Enrollment Survey v2

- Data returned by plans in March was not complete, and it could not be used to determine how many providers are still required to enroll
- The survey will be re-issued to plans with more direct instructions, including a data dictionary with required input formats
- Survey will be issued **May 17, 2018**
- Responses are required by **May 25, 2018**
- This survey will allow the Bureau of Provider Enrollment to determine which of the providers in your network have not yet enrolled in NYS Fee for Service Medicaid – your cooperation is appreciated!

Enrollments

Average Number of New Applications Received Weekly

NEW

Medicaid Pharmacy Enrollment for Individuals Enrolled in MMC Plans Only:

- Many Pharmacies submit FFS enrollment paperwork without being enrolled in Medicare first.
- Some pharmacies are not responding to staff requests to enroll in Medicare.
- We have developed a non-billing option to enroll pharmacies in a “MMC Only” status code.

Non-Billing Medicaid Enrollment Status

- For Pharmacies that serve only **Medicaid Managed Care (MMC)** Plan participants:

- The pharmacy will be able to fill prescriptions for individuals enrolled in a MMC plan.
- The pharmacy will not be able to fill prescriptions for Fee for Service (FFS) recipients.

Credentialing Reminders

- New enrollment applications for NYS Medicaid can take up to 90 days to process, after receipt of all necessary documentation
- If Medicare enrollment is required, an additional 30 days is allowed for processing whereby provider would have 120 days to enroll.
- **The NYS Medicaid effective date and backdate methodology for an approved enrollment application is based on the type of provider. Please refer to the January 25th, 2018 PowerPoint on eMedNY.org at the link below for more details.**

Credentialing Reminders (cont'd)

- MCOs can provisionally credential providers for services, including ordering, referring and prescribing on a condition that such provider submits an enrollment application to NYS Medicaid.
 - **Note:** *MCO's cannot use a providers enrollment in Medicaid in lieu of their own credentialing policies and procedures.*
 - *MMIS number is not required to provisionally credential the provider, therefore the MCO should not be waiting for a MMIS number to credential the provider.*

Per the Chapter 425 amendment of Public Health Law §4406-d and Insurance Law §4803:

Effective April 1, 2017, MCOs must review and respond to provider credentialing applications for participation in a MCO's network within 60 days of receipt.

- On or before day 60, the MCO must respond to the applicant with either an approval or a request for additional information.
- If additional information is requested, the MCO must make a final determination, and notify the applicant, within 21 days.

MCO-Provider Contract Amendment

- Pursuant to a 21st Century Cures Act Section 5005, no later than 7/1/2018, MCOs must amend contracts with providers to include a provision that requires providers to enroll with the State's Medicaid program. If, however, the providers fail to enroll, such providers shall be terminated from participating as a provider in any network of the MCO that serves individuals eligible to receive Medicaid and CHP.
- The Department suggests that this amendment can be done via notice as a unilateral amendment because the Standard Clauses include a provision that requires all parties to comply with all applicable Federal and State laws, rules and regulations.

Notice of Amendment

- The notice of amendment should include an opt out provision allowing the provider who does not want to be bound by this provision an opportunity to terminate the contract.
 - If provider chooses to opt out, the provider is terminating the contract. Therefore, no further notice of termination or hearing rights need be provided by the MCO to the provider.
 - For this type of termination, no transitional care is required. However, providers who choose to opt out should follow the applicable licensure laws regarding the transfer of patient care to another provider.

Amendment Language

- The Department suggests the following amendment language:
 - *The provider furnishing items and services to, or ordering, prescribing, referring, or certifying eligibility for, services for individuals eligible to receive Medicaid and CHP agrees to enroll in the NYS Medicaid Program by completing and filing the designated enrollment application and providing the required information necessary for enrollment. In the event a provider is terminated from, not accepted to, or fails to submit a designated enrollment application to, the NYS Medicaid Program, provider shall be terminated from participating as a provider in any network of the MCO that serves individuals eligible to receive Medicaid or CHP.*
- If a provider did not exercise the right to opt out and, therefore, accepted the amendment but the provider failed to enroll in the NYS Medicaid program subsequent to 7/1/2018 contract amendment deadline, MCOs shall initiate termination. MCOs shall send a notice of termination to such non-enrolled providers pursuant to the requirements of PHL 4406-d (2). Transitional care required in PHL 4403 (6) (e) (1) will apply.

Terminations

- At this time, MCOs **should not be initiating terminations** due to failure to enroll in NYS Medicaid.
- It is imperative that MCO's enrollment status is current
- MCOs should continue to follow the steps below:
 - ✓ Send out provider contract amendment
 - ✓ Check enrollment and pending enrollment data to track compliance
 - ✓ Continue to identify and reach out to providers who have not complied
 - ✓ Complete and return DOH survey of providers not currently enrolled
 - ✓ Await further guidance and recommendations from the Department regarding additional compliance measures MCOs may utilize prior to termination
