Medicaid Providers – Please Read!

If you have not already converted your electronic transactions to HIPAA, only a few more weeks remain to do so.

- Providers that have been granted HIPAA exception processing are advised that this exception will expire as of December 29, 2004. NY Medicaid will not accept your non-HIPAA transactions after that date.

- Unless you complete the conversion to HIPAA compliant formats, NY Medicaid will have no way to pay your electronic claims after December 29, 2004.

- If you utilize a vendor, service bureau or clearinghouse, you should contact them to verify that their systems/software will be HIPAA compliant by December 29, 2004.

Computer Sciences Corporation (CSC) and the Department have developed extensive resources to expedite your HIPAA compliance efforts, which are available at the www.nyhipaadesk.com and www.emedny.org websites

If you need help with Medicaid’s HIPAA requirements or need technical clarification, contact the CSC HIPAA Support Help line at 1-800-522-5518 immediately. Don’t put your Medicaid payments at risk!
