### Family Planning Services Fee Schedule and System Changes

### Family Planning Services Fee Schedule and System Changes

NYS Medicaid did implement necessary fee schedule and system changes to increase fees for certain family planning services effective 1/1/2024 as supported by the 2023-2024 State Budget investment. The [APG fee schedule](#) prices for procedure codes 58300 and 58301 were increased to \$210.08 retroactively. Clinic providers who have already been paid for procedure code 58300 or 58301 may soon receive additional payment from eMedNY if the amount charged on the claim was greater than \$161.60 (e.g. eMedNY will pay \$49.20 more when the amount charged was \$210.08 or greater). Otherwise clinic providers have the next 60 days to submit adjusted claims to Medicaid reflecting adjusted charges for these services rendered since January 1, 2024. Claims that are more than 90 days old and being adjusted must be submitted with a valid delay reason code. Clinic providers are authorized by the Department to use delay reason code 3 on these claim adjustments for the next 60 days.
