

Durable Medical Equipment

Your Medicaid Enrollment

Your Medicaid Enrollment

Federal regulation 42 CFR, Part 455.414 requires New York State Medicaid to revalidate your enrollment every three years. Revalidation involves completion of the enrollment form and, since the risk level for DME providers is "high", a site visit is required.

You can save time and money by coordinating your New York State Medicaid revalidation with Medicare, another state's Medicaid program or CHIP Program. If you revalidate with New York within 12 months of your Medicare/state Medicaid/CHIP site visit, a New York site visit is not necessary and the New York application fee will be waived.

Contact Details:

emednyalert@csc.com

If you have not revalidated with Medicare, another state Medicaid program or CHIP, you can revalidate with New York at any time. Otherwise, New York will contact you directly about your revalidation.
