### Update for DMEPOS Providers

### **Update for DMEPOS Providers: Disposable and Non-Disposable Filters Used with Positive Airway Pressure Device are Transitioning from NYRx/Fee-for-Service to Managed Care**

Effective **April 1, 2025**, coverage for a disposable filter (A7038) and a non-disposable filter (A7039) used with a positive airway pressure device will be transitioned to mainstream Medicaid Managed Care Plans and no longer covered under NYRx for Managed Care members. The transition will align the coverage of all continuous positive airway pressure device supplies as a Managed Care benefit. This change will not affect members currently enrolled in Fee for Service.
